

HAD SHORT SESSIONS

Alger Sworn in as Senator to Fill Vacancy Caused By Death of McMillan.

MESSAGE CLOSELY FOLLOWED.

No Action Taken on the Much Regretted Resignation of Rev. W. H. Milburn, Blind Chaplain of Senate.

Washington, Dec. 3.—Interest in the session of the senate yesterday was heightened by the fact that the president's message to congress would be read and also that General Russell A. Alger, of Michigan, former secretary of war under President McKinley, would be sworn in to fill the vacancy caused by the death of Senator McMillan. His desk and chair were hidden beneath a mass of flowers, and as he took his seat he was surrounded by a number of his colleagues, who extended hearty congratulations. In the gallery were a number of General Alger's personal friends and members of his family.

One hour and 15 minutes were consumed in reading the president's message. Almost the entire Republican representation was in their seats, but not more than half the seats on the Democratic side were occupied. The closest attention was paid to the message as it was being read, and frequently senators would confer regarding some special portion of it which had attracted their particular notice. A number of bills and resolutions were introduced following a brief executive session. The resignation of Rev. W. H. Milburn, the blind chaplain of the senate, was received with genuine regret. He had become a familiar figure in the body and was personally acquainted with every senator. No action was taken on the resignation.

At 1:50 p. m. the senate adjourned until today, out of respect to the memory of the late Charles H. Russell, representative from Connecticut.

In the House.
Washington, Dec. 3.—The house was in session an hour and 40 minutes yesterday. One hour of that time was consumed in reading the president's message. The reading was listened to with attention by members without regard to party, but without demonstration, except at the conclusion of the reading, when the Republicans applauded generously. Mr. Cannon, chairman of the committee on appropriations, gave notice that the bill to defray the expenses of the coal strike commission would be called up today. The deaths of the late Representatives DeGraffenreid and Sheppard, of Texas, which occurred during the recess, were announced, and after adopting the customary resolutions of regret the house adjourned as a further mark of respect to their memories.

Anti-Trust Bill.
Washington, Dec. 3.—Senator Cullom yesterday introduced a bill to amend the Sherman anti-trust law. It prohibits interstate commerce in articles produced by the trusts, the penalty for violations being a fine of from \$750 to \$5,000.

The bill authorizes the attorney general or any district attorney to make application to the federal judges for the summoning of persons before them to answer questions as to material violations of the anti-trust law in advance of the trial of a case, and requires the judges to issue orders for the appearance of such persons upon this application. In such cases witnesses are to be protected against prosecution on account of their revelations, but they are to be deprived of the right to refuse to answer because of self-implication. Annual reports are required to be made by all persons, firms or corporations engaging in interstate commerce. These are to be filed with the interstate commission and they are to be subject to the scrutiny of the attorney general, but not of the general public. The attorney general is authorized to appoint 50 special agents to seek out violations of the law.

Presidential Nominations.
Washington, Dec. 3.—The president yesterday sent the following nominations, among others, to the senate: State—Bollman Storer, Ohio, ambassador extraordinary and plenipotentiary to Austria-Hungary; Charles Tower, Pennsylvania, ambassador extraordinary and plenipotentiary to Germany.

Consuls of the United States—David R. Birch, Pennsylvania, at Malaga, Spain; James C. McNally, Pennsylvania, at Liege, Belgium. Postmasters—Peasylvania: A. C. Mathews, Media; C. L. Ferree, St. Clair; W. W. Morgan, Slaton; W. L. Bivler, Ephrata; W. D. Hamilton, Freedom; I. T. Klingensmith, Leechburg; A. Secor, Sheffield; Lily Waters, Evans City; J. A. McKee, New Castle; R. M. Russell, Glassport; J. M. Brothers, Knox; A. Laubach, Siegfried; S. B. Sickelsmith, New Haven. West Virginia: Albert C. Helmick, Thomas; W. H. Somers, Berkeley Springs. Ohio: W. W. Johns, Belleville; W. W. Roach, Bellefontaine; J. C. Irwin, DeGraff; J. K. McDonald, West Liberty; J. C. Kierce, Forest.

THE NEW YORK STOCK MARKET.

The Close Was Dull and Heavy Under Selling Pressure—Bonds Were Easier.

New York, Dec. 3.—The notable early strength in yesterday's stock market was apparently due to a resumption of activity on the part of some of the recently passive speculative pools. The so-called western contingent was credited with large transactions. The operators on the bull side professed to have advance information of the contents of the president's message. Either their information or their judgment of its effect was at fault, according to the action of the market after the publication of the message. The advance halted about the time the delivery of the message to congress was due. The market lacked all power of resistance to the selling movement from that time forward and the selling pressure gained in force until near the close, which was dull and heavy.

The bond market became easier in sympathy with the late reaction in stocks. Total sales, par value, \$2,170,000.

United States 3s, coupon, declined 1/8 per cent on the last call.

OHIO CAPITAL IN CUBA.

Youngtown Men Secure Franchise to Build 15-Mile Street Railway.

New York, Dec. 3.—Willis Parks and several other capitalists of Youngtown, O., returned from Cuba yesterday on the Ward liner Mexico. They have secured a franchise in Havana for 15 miles of street railway, which, Mr. Parks says, will be completed at once. Under the name of the Havana and Jiminettas Railway company, which is incorporated under the laws of the state of Delaware, they have taken up a large tract of land at Marianac Beach, near Havana, where they propose to establish a summer resort modeled after Coney Island. The main line of the railway line will run from the front wharf where the Ward line steamers land direct to the beach.

Mr. Parks says that a meeting will be held in Youngtown this week, at which the final organization of the company and election of officers and directors will take place.

Ohio and Indiana Electric Railway.

Anderson, Ind., Dec. 3.—Charles F. Henry, of this city, says he will build an electric railway from Indianapolis to Cincinnati, and that work will begin next spring. He expects the road to be in operation to Rushville, at least by July, 1904. Mr. Henry asserts that the Indianapolis-Cincinnati line is not to be a part of any other electric system; that it will be independent of any other and will be an Indiana enterprise. From Indianapolis to Rushville the proposed line will parallel the Cincinnati, Hamilton and Dayton, but from Rushville the route to Cincinnati is yet to be determined.

SPANISH-AMERICAN WAR NURSES.

Washington, Dec. 3.—The Spanish-American war nurses met in annual convention yesterday. Dr. Anita Newcomb McGee, of this city, president. Colonel M. E. Urcil, commander-in-chief of the Spanish War Veterans; Mrs. Flora Lewis, national president of the auxiliaries, Spanish War Veterans; Mrs. Charles W. Fairbanks, of Indiana, president general of the Daughters of the American Revolution, and former Surgeon General Sternberg, of the army, made short addresses.

CASTRO ASKS FOR MORE TIME.

Says Civil War Impoverished Country. Will Issue Bonds at High Rate of Interest.

Berlin, Dec. 3.—The published statement that Germany's claims against Venezuela amount to \$15,000,000 is incorrect. The total is about \$2,000,000.

President Castro represents to Germany that Venezuela has little credit abroad, that the country is just emerging from a civil war, during which planting and industry were partially ruined, and that, therefore, no matter how much Venezuela may desire to satisfy immediately the claims against her, it is obviously impossible. Hence an agreement on the subject must provide for deferred payments. The seizure of the custom houses would add to the internal distress and disorder.

While President Castro's proposals are not disclosed, there is reason to believe that they include the issuance of bonds at a moderately high rate of interest, with some sort of a guarantee that if the interest or the instalments of the principal are defaulted certain Venezuelan custom houses may be taken over by Germany.

There is no disposition here to proceed with harsh measures toward Venezuela if milder ones will suffice to exact satisfaction. The claimants are constantly urging the government to press the collection of the amounts due them.

Caracas, Venezuela, Dec. 3.—The German cruisers Vineta and Falke have arrived at LaGuaira from Curaçao.

\$75,000 FIRE.

Philadelphia, Dec. 3.—The warehouse and office building of the Lucent Oil company, of which William F. Young is president, at Second and Arch streets, was badly damaged by fire yesterday. The loss is estimated at \$75,000, partly covered by insurance.

HEBARD CREW SAVED

While Vessel Was Pounding to Pieces on Rocks Men Were Safely Taken Ashore.

BRAVERY OF THE SHIP'S MATES.

Carried Line Ashore in Frail Little Skiff and Fell Bruised, Bleeding and Exhausted on Shore—Captain Had Narrow Escape from Death.

Detroit, Mich., Dec. 3.—A special to the Free Press from Sault Ste. Marie, Mich., says that the crew of the lost steamer Hebard was rescued Sunday morning and pulled ashore in a "bosun's chair," between the hours of 3 and 10 a. m., while the steamer was pounding to pieces on the rocks 200 yards off shore.

The vessel went on the rocks bow on, in a blinding snow storm, shortly after midnight, off Mamase Point, about 60 miles north of the Soo. The crew could just distinguish the outlines of the rocky shore and it looked as though no small boat could possibly live in the raging sea that was washing over the ship's decks with every billow. But the boat was already settling on her side and it was evident that the pounding could not continue long before the rocks would punch great holes in her. Volunteers to make the attempt to carry a line ashore were found in First Mate Burrell and Second Mate Jackson. The ship's jawl had been stove in by the sea and nothing remained for the perilous trip ashore but a little skiff. In this frail little craft the two mates set out. Twice their boat was hurled back by the waves when they had all but reached the goal, and the third time the boat spilled them out just inside the line of safety. Clambering up the rocks, clinging tightly to the line upon which hung the lives of their comrades aboard ship, the two men, bruised and bleeding from head to foot, fell exhausted on the shore.

Helped Crew to Shore.
Oscar Carleson, who lives nearby, came upon the scene with his sons in time to assist in making fast the line and help bring the first members of the crew to the shore.

Two were hauled in the chair at once for the first two trips, and the fifth passenger was Miss Jennie Barnes.

Captain Ryan had a narrow escape from death at the last moment. As he was swinging clear of the vessel the lines became entangled and it was a difficult task to get him ashore. He was thrown out of the chair and had to be hauled out of the surf by the members of the crew who had preceded him. It was 10 o'clock in the morning when all were safely on the shore.

Are Overdue.
Ashland, Wis., Dec. 3.—Fear is generally expressed here that the steamer Wilhelm and tow, which left the Soo Sunday noon, have fallen victims to the storm which swept Lake Superior Sunday night. The boats were bound for Ashland, and are long overdue. No word has come that they have reached shelter at any point since leaving Sault Ste. Marie.

CUBAN RECIPROCITY.

General Bliss Says Everything Is Progressing Satisfactorily.

Havana, Dec. 3.—General Tasker H. Bliss, who is here to arrange a basis for a reciprocity treaty between the United States and Cuba, had another conference yesterday with Secretary of State Zaldo and Secretary of Finance Mantos, who were appointed a committee by President Palma to meet the general.

General Bliss afterward said: "We expect to conclude the conference next Saturday. Everything is progressing satisfactorily."

It is generally understood that the Cuban commissioners have accepted all propositions which General Bliss has advanced thus far on behalf of the United States.

Runaway Freight.
Wheeling, W. Va., Dec. 3.—A special from Cumberland, Md., to the Register says: A freight train of 24 cars, with engine, was wiped out on the West Virginia Central railroad yesterday evening in a runaway down the Blackwater grade, one of the steepest in the country, 167 feet to the mile. Engineer John Jankey was killed and brakeman Alva Wolfe, of Elkins, fatally, and Conductor James Brown and Fireman L. J. Cross, both hurt. The runaway was caused by the wet rails, a heavy rain having fallen during the evening.

RAILROAD EMPLOYEES.

Four Powerful Organizations Will Demand Increased Pay.
Chicago, Dec. 3.—With the purpose of formulating requests for increase from 10 to 20 per cent in the pay of 170,000 railroad employees, committees from four powerful labor organizations are now meeting in Chicago. They are holding daily sessions in four Chicago hotels, and may be expected to present their demands to the railroad officials early next week. The four organizations represented by the committees are: Brotherhood of Locomotive Engineers, membership 41,000; Brotherhood of Locomotive Firemen, membership 47,000; Brotherhood of Railroad Trainmen, membership 60,000; Order of Railway Conductors, membership 22,000.

For the first time in eight years the four organizations are working in harmony and may be counted upon to stand together in the possibility of trouble with the railroads.

Fallen H. Wales Dead.
New York, Dec. 3.—Salem H. Wales, father-in-law of Secretary Root, died here yesterday afternoon. He was 72 years of age.

Judge Earl Dead.
Utica, N. Y., Dec. 3.—Former Judge of the State Court of Appeals Robert Earl died at his home in Herkimer yesterday of paralysis. He was 78 years old.

BIG MALLEABLE IRON COMBINE.

Seventeen of the Leading Concerns in the United States Go Into One Big Company.

Detroit, Dec. 3.—One of the biggest deals ever made in the state of Michigan was consummated in the office of W. C. McMillan here yesterday, when 17 of the leading malleable iron concerns of the United States signed an agreement to form one big company, with a capital of from \$16,000,000 to \$20,000,000.

The financial headquarters of the concern will be at New York and the headquarters of the operating department at Chicago, temporarily at least. W. C. McMillan, of the Michigan Malleable Iron company, said last night:

"There has been no cash paid out and there is no water for stock jobbing purposes. We have combined because we believe it is for our best interest to do so, and have not sold out to any trust. It is true that the United States Steel corporation interests are in this and that the corporation is to that extent interested. The new combination is as big as the National, the only other large malleable amalgamation in existence, and I consider it fully as strong. None of the plants will be shut down and there will be no change in their management."

ATTORNEY GENERAL'S REPORT.

Recommendations for Increase of Salaries of Judicial Officers Renewed.

Washington, Dec. 3.—Attorney General Knox, in his annual report, submitted to congress yesterday, renews his recommendation for an increase of the salaries of judicial officers throughout the country. The report shows that the number of cases remaining undisposed of in the United States supreme court at the close of the October, 1902, term, was 344 on the appellate and 41 on the original docket. At the close of the previous term there were 336 cases undisposed of. The number of cases docketed at the term was 383; number disposed of, 375.

The statement of criminal prosecutions in the United States court shows that 16,350 prosecutions terminated during the last year. Of the 9,602 criminal prosecutions pending July 1, 1902, 262 were for violations of customs laws, 3,506 for violation of internal revenue laws, 722 for violation of postoffice laws, 10 under the election laws, 160 under the naturalization laws, 909 under the intercourse laws, 145 under the pension laws, 74 for embezzlement and 3,836 miscellaneous prosecutions. On July 1, 1902 there were 3,150 United States convicts in the various prisons and reformatories of the country.

Severe Southern Storms.
Louisville, Ky., Dec. 3.—A severe storm of wind and rain swept over a portion of the south yesterday, causing considerable loss to property and several casualties. Southern Louisiana, Northern Mississippi, Western Tennessee and Southern Alabama were the chief sufferers. The storm also was very severe in the vicinity of Clayton, Ala., where trees were uprooted and houses blown down. It is feared that the loss of life and serious losses among live stock may be reported when full details of the damage shall be received.

Evansville, Ind., Dec. 3.—The worst storm that has visited Southern Indiana in many years swept this section yesterday afternoon, sinking barges and house boats on the river, tearing down buildings and playing havoc with telephone and telegraph wires.

Representatives of American Republics Meet in Washington.

Washington, Dec. 3.—The first international sanitary conference of the American republics convened here yesterday. The governments of Mexico, Cuba, Chile, Costa Rica, Salvador, Honduras and the United States were represented by the delegates. The conference is the outgrowth of the international meeting held a year ago in the city of Mexico, and quarantine and sanitation matters generally are to be discussed, and whatever measures are adopted to improve existing systems will be considered by an international sanitary bureau before the assembling of the next annual conference. The sessions yesterday were mostly devoted to welcoming addresses and organization.

Officiating as the governing board were Ambassador Azpilicueta, of Mexico, and Minister Quesada, of Cuba. Dr. Walter Wyman, surgeon general of the marine hospital service, called the conference to order. Formal addresses of welcome were made by Secretary of the Treasury Shaw and Assistant Secretary of State Hill. They were responded to by a number of the delegates.

Formal organization was completed by the election of Dr. Walter Wyman, surgeon general of the United States marine hospital service, as president and Dr. Arthur E. Reynolds, of Chicago, as secretary. An advisory council of several delegates was appointed. The conference then adjourned until today.

Monument Competition Decided.
New York, Dec. 3.—The competition for the commission of designing and erecting a \$20,000 monument in Pittsburgh to Colonel Alexander L. Hawkins, of the Tenth Pennsylvania volunteer regiment, was decided yesterday. The winner is William Couper, a sculptor of this city. The jury consisted of John W. Beatty, director of the Carnegie institute at Pittsburgh, and Daniel C. French and Thomas Shields Clarke, sculptors of this city.

10 Per Cent Freight Advance.
Cleveland, Dec. 3.—The iron committee of the Central Freight association, at a meeting which has just closed here, arranged for an advance of 10 per cent in the rates of freight on iron and iron products. This change in the rates is to become effective at once.

Organizer Calls Meeting.
Toledo, Dec. 3.—T. H. Flynn, general organizer of the American Federation of Labor, has issued a call for a meeting of representatives of the iron craft at Pittsburgh, Jan. 5, 1903, for the purpose of settling jurisdiction disputes involving the metal trades.

FOREIGNERS' OPINIONS

Some London Papers Regard President Roosevelt's Message as Disappointing.

FRENCH PRESS COMPLIMENTARY

Say It is an Original and Highly Interesting Document, Inspired by Ardent Patriotism and Manifesting Great Courage on Part of Author.

London, Dec. 3.—Some of the London morning papers regard President Roosevelt's message as disappointing, inasmuch, according to their views, "he adopts a cautious and conservative policy rather than a revolutionary one in dealing with the trust question and the tariff." On the whole, however, while carefully examining the message in detail, there is not a strong disposition on the part of the press to strongly criticize it.

"The general impression is that President Roosevelt has been influenced by the warning echoes of the last elections and that he seeks to attract rather than attempts to compel the support of congress." A leading paper says: "The message is more remarkable for the lofty idealism of its language than for any boldness in its specific recommendations."

The president's announcement of the foreign policy of the United States and his advocacy of a strong navy meet with warm appreciation and the message generally is welcomed as a tranquilizing one by proving that no organic change of policy is intended.

Paris Views.
Paris, Dec. 3.—Most of the morning papers here give considerable space to President Roosevelt's message. The few journals that comment on the message pronounce it an original and highly interesting document, inspired by ardent patriotism and manifesting great courage on the part of its author, especially in his treatment of the trust question. These papers approve his enunciations regarding the foreign policy of the United States and the Monroe doctrine.

The Figaro dwells admiringly on the fact that the message has nothing of the commonplace which is a customary feature of communications from European sovereigns to their parliaments.

SANITARY CONFERENCE.

Representatives of American Republics Meet in Washington.

Washington, Dec. 3.—The first international sanitary conference of the American republics convened here yesterday. The governments of Mexico, Cuba, Chile, Costa Rica, Salvador, Honduras and the United States were represented by the delegates. The conference is the outgrowth of the international meeting held a year ago in the city of Mexico, and quarantine and sanitation matters generally are to be discussed, and whatever measures are adopted to improve existing systems will be considered by an international sanitary bureau before the assembling of the next annual conference. The sessions yesterday were mostly devoted to welcoming addresses and organization.

Officiating as the governing board were Ambassador Azpilicueta, of Mexico, and Minister Quesada, of Cuba. Dr. Walter Wyman, surgeon general of the marine hospital service, called the conference to order. Formal addresses of welcome were made by Secretary of the Treasury Shaw and Assistant Secretary of State Hill. They were responded to by a number of the delegates.

Formal organization was completed by the election of Dr. Walter Wyman, surgeon general of the United States marine hospital service, as president and Dr. Arthur E. Reynolds, of Chicago, as secretary. An advisory council of several delegates was appointed. The conference then adjourned until today.

Monument Competition Decided.
New York, Dec. 3.—The competition for the commission of designing and erecting a \$20,000 monument in Pittsburgh to Colonel Alexander L. Hawkins, of the Tenth Pennsylvania volunteer regiment, was decided yesterday. The winner is William Couper, a sculptor of this city. The jury consisted of John W. Beatty, director of the Carnegie institute at Pittsburgh, and Daniel C. French and Thomas Shields Clarke, sculptors of this city.

10 Per Cent Freight Advance.
Cleveland, Dec. 3.—The iron committee of the Central Freight association, at a meeting which has just closed here, arranged for an advance of 10 per cent in the rates of freight on iron and iron products. This change in the rates is to become effective at once.

Organizer Calls Meeting.
Toledo, Dec. 3.—T. H. Flynn, general organizer of the American Federation of Labor, has issued a call for a meeting of representatives of the iron craft at Pittsburgh, Jan. 5, 1903, for the purpose of settling jurisdiction disputes involving the metal trades.

AMERICAN METHODS.

German Farmers Coming Here to Investigate.

Berlin, Dec. 3.—A large delegation of farmers, under the auspices of the German agricultural society, is going to the United States in April for a three months' tour, studying American agricultural methods. The German embassy at Washington negotiated the affair with the agricultural department, which will furnish a guide during the entire trip. His expenses will be defrayed by the Germans. The trip includes stops at Baltimore, where special attention will be given to dairy farms, and Washington, where the agricultural department will be exhaustively studied. The German agricultural society, though a private organization, has taken the United States agricultural department as a model, and is trying to do in Germany many things which the department does in the United States. After leaving Washington the industries of West Virginia will be examined and then the horse breeding and tobacco growing industries of Kentucky will be inspected. The tourists afterward will visit St. Louis, Kansas City and Omaha, where the stock yards will be investigated and will also inquire into the Nebraska beet sugar industry. They will next stop at the irrigating system of Colorado.

From San Francisco the German farmers will go on an excursion to Los Angeles and study the fruit farms. They will return eastward via Tacoma and the wheat farms of the Dakotas and Minnesota. Later they will visit the Chicago slaughter houses and grain elevators, after which the Germans will be shown the beet root industry of Michigan. A number of agricultural experiment stations along the route will be examined. The travelers will embark for home at New York, June 30.

THE NEW TRUST BILL.

Nine Sections Added to the Sherman Bill.

Washington, Dec. 3.—What has been heralded as the administration's anti-trust bill was introduced in the Senate yesterday by Senator Cullom. Because the Illinois senator was for some years chairman of the Senate committee on interstate commerce and therefore very familiar with the operation of the laws on the subject, it was announced some time ago that President Roosevelt had entrusted to him the preparation of the bill which was to embody his views. There has, therefore, been much curiosity to see the results of Mr. Cullom's labors. He proposes to add nine new sections to the Sherman law.

Section nine, the first of the proposed new sections, provides that "no article of commerce produced, manufactured, owned or dealt in by any person, corporation, association, joint stock company or partnership, shall be transported or carried without the state or territory in which produced or manufactured, etc."

It further provides that every person, corporation, etc., carrying on business for any of the purposes aforesaid may be perpetually enjoined and restrained from doing or carrying on any interstate or foreign commerce whatever.

Section twelve authorizes the attorney general to appoint as many as fifty competent men to be assigned to different parts of the United States to search for evidences of violation of this act.

BROKE JAIL AT ASHLAND.

Convicted Horse Thief Attacks the Sheriff.

Ashland, O., Dec. 3.—A horse thief giving the name of Brown West, who had been sentenced to five years in the penitentiary, made his escape from the jail Monday. Sheriff Homan was taking his supper to him on a tray and when the sheriff stepped inside the cell door West struck him on top of the head with a heavy piece of iron.

The sheriff, although partially stunned, grappled with his prisoner and together they rolled down a short flight of stairs. The prisoner succeeded in getting away and made a dash for the large glass front door to the jail. Mrs. Homan and daughter Elva attempted to stop him, but he thrust them aside, jumped through the door and escaped. Bloodhounds were put on his trail.

California.

Fully described and illustrated in an artistically arranged and beautifully printed book just issued by the Chicago & North-Western R'y. It describes fully its commercial, industrial and transportation advantages, and the delights of outdoor life in the beautiful climate of the Coast; of special interest to those contemplating a trip to this wonderful State. Set at four cents in postage to W. B. Kniskern, Passenger Traffic Manager, 22 Fifth Avenue, Chicago.

Field Hockey Popular

The English Game Making Rapid Headway In This Country. Mode of Play and Ground Dimensions.

Field hockey, the popular English game recently introduced into this country, has made an unmistakable hit. The sport combines all the elements that go to make up a successful American pastime, and it is highly

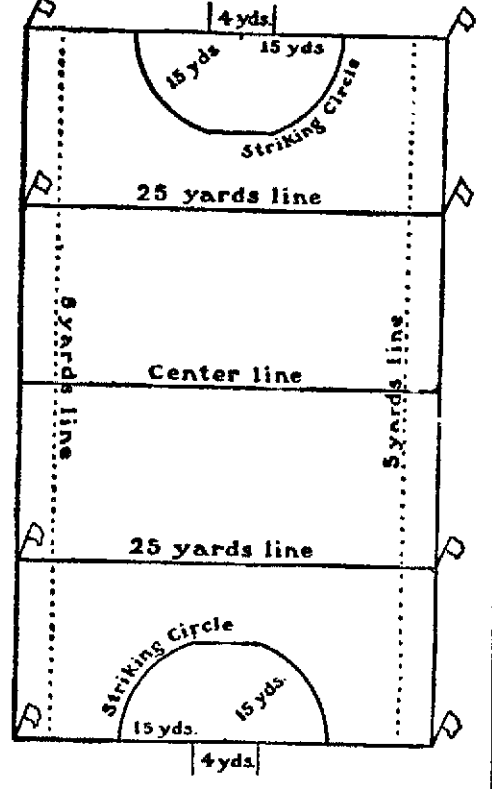

DIAGRAM OF FIELD HOCKEY GROUNDS. probable that in another year we will find it fully as popular as many games that have had a much longer life.

Miss Constance McK. Applebee, the well known authority on the game in England, was responsible for its introduction into this country, and as the result of her labors the women's colleges of Vassar, Bryn Mawr, Pennsylvania; Wellesley, Massachusetts; Radcliffe, at Cambridge, Mass., and Smith, at Northampton, Mass., have become ardent patrons of field hockey. Several hundred enthusiastic young women of athletic inclinations have formed themselves into teams, and an inter-collegiate association is soon to be formed. Men, too, are evincing a lively interest in the game.

The game of field hockey has been highly recommended by American authorities on physical education and is as popular in England as baseball is in America. It also has an advantage, owing to the fact that it can be played by boys and girls, men and women, and in England mixed tournaments are particularly popular. It is Miss Applebee's intention to endeavor to get the different golf clubs to take up this English game as an adjunct to the game of golf, for in this way the women folks will become more interested in physical development.

Although the game can be traced back to 1527 in England and 1537 in France, it was only in 1875 the Men's Hockey association was formed and placed upon a sound basis. In 1886 the first women's hockey club was started, and it gradually became a favorite sport among Englishwomen. It was in 1895 that the All England Women's Hockey association was formed, and from that until the present day it has been popular throughout Great Britain.

The dimensions of the regulation hockey field are 100 yards in length by not less than 50 yards or more than 60 yards in breadth. This space must be marked out with whitewash lines and

TYPICAL WOMAN FIELD HOCKEY PLAYER. with a flag at each corner. Care must be taken that the angles are right angles. The longer lines are called the "side lines" and the shorter ones the "goal lines."

Across the ground, fifty yards from each goal line, is marked the "center line." Each half of the ground is again divided by a line called the "twenty-five yard line."

In the middle of each goal line and four yards apart are placed the goal posts. These must be uprights seven feet high, with a horizontal bar stretching from one to the other. In the front of each goal and fifteen yards from it is drawn a line four yards long, parallel to the goal line. The ends of this line are carried around in a curve, forming a quarter circle, until they reach the goal line at a point fifteen yards from the center of the goal. This half circle is called the "striking circle."

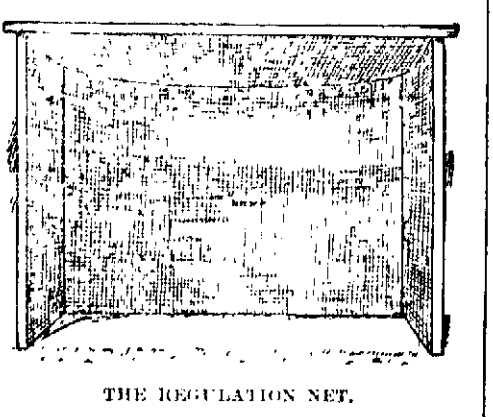

The field must be a level, smooth stretch of turf, kept short and well rolled. The better the condition of the ground the greater can be the accuracy and skill of the play. Cricket, tennis or football fields can often be hired for one or two days a week during the hockey season, and if reasonable care is taken of the ground it should in no way be the worse for hockey.

When no better is available, an ordinary flat field, if rolled and looked after a little, will answer the purpose in the beginning; then when a game is well started and the players reach the stage of skillful and accurate play a flourishing hockey club will have less difficulty in procuring a suitable ground for the coming seasons.

A good stick is of greatest importance. Sticks should weigh from nineteen to twenty-five ounces. The most useful weight for a beginner is twenty-two ounces. With this she can play in any place on the field. The general custom is a nineteen or twenty-two ounce stick for the forwards, twenty-one to twenty-three ounce stick for the halfbacks, twenty-three to twenty-five ounce for the backs and goalkeeper. The average height is 3 feet 2 inches. But in this, as in the weight, each individual is the best judge as to which suits her particular mode of play and which, while long enough to prevent stooping, is not so high as to impede easy and free wrist play.

The sticks are made of ash or hickory of the better kind, with ash blades and cane handles. The cane handle gives a spring which sends a clean driving hit without any jar to the hands. A regulation "American association hockey stick," made from an English pattern, has been brought out and can be relied on. All these sticks are stamped "Applebee" on the handle. A useful addition to the stick is a thick rubber ring about two feet from the top to prevent other sticks slipping up and "barking" the fingers.

The balls should be the size and weight of an ordinary cricket ball and painted white. The American Hockey association has also brought out a very

THE REGULATION NET.

good ball which, while as good for play as a cricket ball, is not so expensive. It is now the general custom on hockey fields to have nets affixed to the back of the goal posts. Though not an actual necessity, they are a great convenience. In the case of a hard shot it is sometimes difficult for the umpire to decide whether the ball has gone through the goal or at the side of it. With nets properly fixed this point cannot arise. If the ball passes between the goal posts, it will be stopped inside the net, and disputes between awarding "a goal" or "twenty-five yard bully" are rendered impossible.

In a book Miss Applebee has written, entitled "English Field Hockey For Men and Women," she describes the mode of play as follows:

"The game is played by twenty-two players, eleven on each side, but where there is difficulty in getting the full numbers the respective captains may decide to play with twenty or a fewer. A regulation match game should be played with the full number on each side. Each eleven consists of five forwards, three halfbacks, two fullbacks and a goal keeper.

"The five forwards stand close to the center line. Their feet and sticks must be inside the line that is nearer their own goal than the ball, which is placed on the line. The remaining players are stationed as provided for in the official rules.

"The game starts with the ball being 'batted off' in the center of the ground by the two center forwards. The ball is placed on the line, and the two forwards who are bullying stand with one foot on either side of the line facing each other and standing square to the side line.

"The center halves and left and right inside forwards on the blowing of the whistle for the bully close up to watch it, each one ready to take the ball should it come her way.

"The center forward getting the ball will try to pass it out to either of her own inside players, who, on getting possession of it, will 'dribble' it up the field until met by an enemy, when she will, by a quick stroke, pass it out to the wing player, in this way keeping a straight line and followed by the halfbacks by skillful and clever passes and dribbling the forwards get the ball into the 'striking circle.' When once the ball is inside this circle, a goal can be scored. All five forwards then concentrate their energies on 'shooting a goal,' the goal keeper and fullbacks endeavoring to send the ball well out of the circle to their own halfbacks, who are waiting to pass it down to their own forwards.

Newark's New Captain.
Manager W. W. Burnham of the Newark (N. J.) club has signed John J. O'Brien of Lewiston, Me., to captain the club and play second base for 1903.

New Orleans Baseball.
Frank Bishop will be the backer and Charley Frank manager of the New Orleans club in the new Southern league.

The Bowlers Realm

Willie Gehman of Philadelphia, a Young Phenomenon. Baseball Talk.

Bowlers were never more enthusiastic than at present. In Chicago, St. Louis, San Francisco, Philadelphia and New York the alley sharps are promoting tournaments, and many sensational high scores are announced, especially in Chicago, where bowling interest is always at fever heat.

One of the most remarkable young bowlers in the country is Willie Gehman, a sixteen-year-old youngster in Philadelphia. Even were his age not taken into consideration, his wonderful records on the alley would place him among the foremost bowlers in the country.

While his bowling is of a phenomenal nature, in view of his years, there is nothing of the prodigy about the youngster. Less than five feet in height and weighing but eighty-four pounds, Willie, who is now known as the boy wonder, has done some remarkable work with the tenpins.

His best score thus far is 207 out of a possible 300. The score in detail follows: 30, 60, 90, 120, 150, 179, 199, 219, 248, 267. He made seven consecutive strikes, then made a spare, and finished with two strikes and nine. This score is the best made on the Imperial alleys.

In three successive games he rolled 663, an average of 221, a feat few bowlers have been able to accomplish. In other games he has made as follows: Coked hat, 47; tenpins (small balls), 147; ninepins, 8 (out of a possible 10); five back, 78.

In bowling, he rolls a side ball which weighs ordinarily from sixteen to seventeen pounds. He rolls with great accuracy, and, naturally, in view of the weight of the ball and his size and age, great speed does not characterize his work.

In making spares from splits or difficult combinations he has had excellent

WILLIE GEHMAN'S BOWLING POSE.

success. Inasmuch as he has been bowling but eight months, his work is of an extraordinary nature. He is equally clever at coked hat, five back, ninepins and duckpins as he is at the normal game of tenpins.

Personally he is a quiet, well-mannered youngster.

Tom Loftus, manager of the Washington American league team, has found a "wonder." "I have my team all signed," he says, "and now I am looking for 'phenoms.' I believe I have discovered a 'wonder' in a young pitcher named Clark, who hails from Georgia. He won thirty-three out of thirty-five games he pitched last season. He is bigger than Cy Young and has more speed than Babe Waddell. No, I don't know what league he played in, and I never saw his work, but from what they tell me he must be a wonder."

Patsy Donovan considers Jack O'Neil the greatest card in the game at the present time. Says he, "I never saw O'Neil's superior as a catcher of foul raps, and, come to think of it, no 'big mitt' artist his first season out ever did catch any better ball."

Barney Dreyfuss has bagged another pitcher for his champion team. The new Pirate is Frederick W. Veil, a right handed youngster, for several seasons on the Bucknell college team and lately with the Altoona semiprofessional club. Veil was a team mate of Christy Mathewson at Bucknell up to June of the present year, when he joined the Altoona team and continued his fine slab work.

President Harriman has just purchased the Cincinnati club stock held by W. H. O'Brien of Minneapolis and is negotiating with Colonel John D. Ellison of Columbus for his holdings, which when secured will give the new owners every share of stock issued on behalf of the Cincinnati club. As soon as the Ellison deal is consummated the club will be dissolved as a Kentucky corporation and will be reorganized under the laws of Ohio.

CUBA'S NEW RAILROAD

Trunk Line That Runs From Santa Clara to Santiago.

THROUGH TRIP MADE IN A DAY.

Keeping Cars Will Be Used For the First Time on the Island—The Line Is of Standard Gauge and Is Equipped Like Our Best Railways—Its Bridges Are of Steel and Masonry.

Cuba's new line of railway, just opened, runs from Santa Clara through the very center of the western portion of the island via Santo Espirito Junction, Puerto Principe and Santa Clara divisions was laid a few days ago at Piedras, amid the general jubilation of the residents of Santa Clara province.

Through sleepers will run between Havana and Santiago, which will prove a revelation to many of the natives in the way of transportation service, the roads in Cuba being poorly equipped and a sleeper never having been imported into Cuba.

The local fare will be 3 cents a kilometer (about two-thirds of a mile), but a cheaper rate will be made for the through trip, which will be accomplished in twenty-four hours. It now requires from three to four days to make the trip by steamer.

The whole length of the trunk line constructed by the Cuba Railway company is a little more than 450 miles, through rock, jungle and forest, over plateaus, rivers and valleys, and touches the main towns and native villages between the two extreme points. Later, branch lines, now in course of construction, will be opened for public traffic between Santiago and the bay of Nipe, Jucaro and San Fernando, as well as from Santo Espirito Junction to Santo Espirito City.

Until now the western portion of the island only has enjoyed railway facilities, the larger territory, comprising some 30,000 square miles, remaining comparatively unexplored. The company's object in constructing the new lines of railroad is to extend the existing system, "which only runs through barely one-half of the western part of the island, and to develop the enormous tract of eastern territory where hitherto no railway facilities have existed," as announced.

"The trunk line is of standard gauge, its bridges are of steel and masonry, and its equipment will be similar to that of the best American railways.

The country thus opened up is reported as containing much undeveloped minerals, large areas of rich land and an abundant supply of good water. Although the present population is only about 1,000,000, the resources of the island are sufficient to maintain 10,000,000 people.

Robert P. Porter, who was intrusted by the late President McKinley to report on the industrial, financial and commercial condition of the island, has expressed his opinion concerning this new venture as follows:

"From whatever standpoint it may be viewed, no one enterprise could do so much to improve the situation of the island. No revolution could have existed in Cuba if such a railroad had been completed by the former government, and nothing will so rapidly tend to the revival of commercial and general business as the facility for quick passage from one end of the island to the other and from the trunk line over branches to the seaboard cities.

"All political turbulence will be quieted thereby and prevented in the future. The entire country will be open to commerce, lands now practically of no value, the seaport towns will become active, and commerce between the island and the United States will soon be restored to at least its former condition."

The company is of an American-British character, headed by Sir William Van Horne as president and a directorate consisting of well known men.

London Society's Latest Fad.

London society's latest craze is the vibration cure as practiced by a Swedish specialist, says the New York World. Like the Christian Scientist, the vibrationist claims to be able to

cure anything and everything by his treatment, a claim which is supported by Adelina Patti among others. Nerve troubles, pneumonia, endocarditis—all are vibrated out of the system in miraculous fashion. Palming, faith healing and crystal gazing have given way for the moment to the vibrationist, whose parlors are crowded with fashionable and foolish women.

A Flying Boat.

Herr Gustav Koch of Berlin proposes to construct a boat which will be able to fly, says the Philadelphia Press. The experiments, he says, will be conducted on water, by means of which the danger of cross country trial trips would be avoided. He recently showed to the German Society For Aerial Navigation his invention, which consists of a low, flat and light motor boat floating on the surface of the water. It has adjustable steering apparatus and horizontal sails.

Girls Will Say "Fudge" Now.

Professor Clark of Northwestern university says "heavens" and "great heavens" are profanity and equivalent to "damn," says a Chicago dispatch to the New York World. The announcement was made to university "coeds" the other day in a course of a lecture on composition. The pretty "coeds" did not until then know how wicked they had been and have resolved hereafter to say "fudge" when wishing to relieve their feelings.

GOLDING'S LATEST FIND.

Sea Captain Gives the Bronx Zoo Animal of Unknown Family.

After a battle with a twenty-four foot python, after taming a huge Manxurian leopard and after puzzling the scientists at the Bronx zoo with a strange and curious beast that has never been seen in the United States before, Captain Golding of the British ship Afridi, which arrived recently at New York, does not feel that his last voyage was lacking in interest and excitement, says the New York American.

The strange animal that has caused Mr. Hornaday of the Bronx zoo to admit that he does not know what it is, is a small white creature that looks something like a fox, but more like a raccoon. It is about two feet long and eight inches high. Its nose and head are raccoon shaped, its fore quarters are shaped like those of a fox, and so is its tail, but its hind quarters are fat and bunched, like a coon's. It is pure white, with the exception of a black patch over its eyes.

"The Japanese call it a white fox," said Captain Golding, "but that is not what it is. I got it in Yokohama, and it is certainly a very curious specimen."

Captain Golding began the collection of zoological specimens for the Bronx zoo about five years ago. Mr. Hornaday commissioned him to collect specimens whenever he made trips. As he circles the globe on his ship about three times every two years, he has splendid opportunities to secure rare specimens.

BLOOD WRITTEN PACT.

Methods of Filipino Insurgents Revealed in Growsome Paper.

A growsome paper which reveals some of the methods resorted to by insurgent leaders in the Philippines has reached Adjutant General Corbin, says a Washington dispatch to the Chicago Inter Ocean. It is the record of the trial of Pascual Pasis, an insurgent officer, and four others for the murder of a native who refused to submit to the "branding" operation and sign the secret pact with his blood. The pact translated reads:

"We, understanding all that the regulations of the K K K explain, swear in the name of God and on our life that we will comply cheerfully till the last drop of our blood to defend this our native country; also that in any case we commit things contrary to the regulations of the K K K we shall expect cheerfully to be punished as we deserve, even should it be by death, and in order to give faith to these statements we sign this with our blood which flows from our breast. Busiac, April 27, 1900.

It was shown at the trial that Pasis, with his comrades, went about the country seeking members for the Katipunan, the dreaded secret order of the insurgents. Natives were forced to sign the document after first being branded on the right breast with the month of a hot烙烙. The signature was drawn from the left breast by a crossed with a dagger belonging to the...

Homeseekers' Cheap Excursion to the West and Northwest.

via Chicago & North-Western R'y from Chicago, November 4, 18, December 2 and 16. Exceptionally low rates to a large number of points in Northern Iowa, Western Minnesota, North and South Dakota, Nebraska and Wyoming. Better own a farm. Start now. Send 2-cent stamp to W. B. Kniskern, 22 Fifth Avenue, Chicago, for copy of the "North-Western Homeseeker." Apply to your nearest ticket agent for particulars, or address, A. F. Cleveland, 284 Superior Street, Cleveland, Ohio.

For Over Sixty Years

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty five cents a bottle.

THESE ARE THE REASONS WHY DR. A. W. CHASE'S NERVE PILLS LEAD THE WORLD.

Founded on common sense—Years of study and experience—Devoid of all substance injurious—Purely vegetable in composition—Contain no opiates or narcotics—Easy and pleasant in action—Thorough in effect, certain in results—Safe in all ages, at all times—And in all conditions recommended—The product of a master mind—The life work of the famous author of DR. CHASE'S RECIPE BOOK.

- SYMPTOMS:**

 - Restless, languid.
 - Weak and weary.
 - No life—no energy, no ambition.
 - Tired all the time.
 - Throbbing palpitating heart.
 - Sleepless nights.
- Sudden startings.
 - Morning languor.
 - Brain fog.
 - Inability to work or think.
 - Exhaustion on exertion.
 - Flagging appetite.
- Slow digestion.
 - Foetid heavy.
 - Easily excited, nervous.
 - Strength fails.
 - Trembling hands and limbs.
- Loss of flesh.
 - Loss of muscular power.
 - Settled melancholia.
 - Irritable, despondent.
 - Complete collapse.

North Mill Street

Mr. Chas. Huth, of No. 31 North Mill street, Massillon, O., says: "I was very nervous, debilitated and felt generally miserable—dull, lacked energy. I was advised to try Dr. A. W. Chase's Nerve Pills and got them at E. S. Craig's drug store, No. 9 South Erie street. The medicine is a fine one—my strength came back, the nerves grew steady and a feeling of energy and life came back. I like the Nerve Pills very much."

THURSDAY, DECEMBER 4, 1902.

President Roosevelt has evidently applied his recent decision regarding the advisability of condensing government reports to his own message. There was a good deal to say in that document but it was said in the fewest words possible. Brevity and conservatism are excellent characteristics to unite in the preparation of state papers. President Roosevelt's latest effort is to be commended for the attention it pays to both these particulars.

The New England Anti-Imperialist League held its annual meeting in Boston Tuesday at which it was sadly asserted by Secretary Irving Winslow that "the most sanguine must now acknowledge that the drift within the Republican party is too strong for us." It would indeed seem so. The drift within the Republican party is the will of the American people, before which everything in the shape of humbug sooner or later goes to the wall.

It is a practical man, a student of economics—the Hon. Carroll D. Wright—who makes the following remarkable statement: "I believe that in the adoption of the philosophy of the religion of Jesus Christ as a practical creed for the conduct of business lies the easiest and speediest solution of those industrial difficulties which are exciting the minds of men today and leading many to think that the crisis of government is at hand."

Victor H. Morgan, who for the past ten years has been on The Independent's reportorial staff, occupying the position of city editor for the last five years, has resigned. Mr. Morgan for some months has been editor and publisher of the Canal Fulton Signal, which he purchased shortly after the death of the late John P. Yockey, its founder, and will hereafter devote his entire time to that publication. Mr. Morgan's work on The Independent has been highly satisfactory, and the company deeply regrets the necessity for severing the relations which have at all times been most pleasant.

Persons who have labored under the delusion that the greatest interest of the Southern states is bound up in agricultural pursuits and products will be enlightened by this information furnished by the Atlanta Constitution: The figures reported by the census returns show that while in 1880 the agricultural products of the South exceeded in value that of its manufactures by \$200,000,000, the balance has been turned to the other account during the twenty years just passed, so that in 1900 the value of Southern manufactured products exceeded the value of our agricultural products by \$190,000,000. It must be remembered, too, that the number of people in the South engaged in agriculture in 1900 was 36 per centum more than were so engaged in 1880. These are most significant figures and it will take the wisest sort of statesmen to figure out their effect upon the industrial, economic and political policies of the Southern people within the next two decades."

There are two articles in the December Review of Reviews on the movement for the consolidation of country schools. Superintendent Nelson, of Kansas, describes the plan and its merits, while the experience of school officers in many states in attempting the centralization of rural schools and the transportation of pupils at public expense is summarized by William B. Shaw. It is shown that much progress has been made in this direction—especially in the middle West and South. Under our present educational system, it has become necessary for the farmer to leave the farm and move into the city to secure the advantages for his children of graded schools. The problem for our rural communities is how best to secure the benefits of a graded school system so as to enable the farmer to give his children instruction in the higher branches of learning without being obliged to leave the farm. It is found that many farmers are not able, or do not find it desirable, to change their place of residence, and consequently the larger educational privileges are limited to a very few of the boys and girls upon the farm. It is thought that the consolidation of rural schools will solve the problem.

The annual report of Superintendent Henry C. Eyman, of the Massillon state hospital, contains much interesting information concerning the magnificent institution at our doors. Marked progress is made every year in the knowledge of methods of caring for the unfortunate insane and of diminishing the burden on the state by increasing the number of recoveries. As Dr. Eyman says, when a man recovers the use of his reason, there is saved, not only what his actual cost to the state would have been, but he is returned to his family and made a bread winner again, so that his presence in the world adds to the public wealth. It is said that the medical care of the insane is better now than at any period in the history of Ohio. The chances, therefore, of bringing about the results referred to by Dr. Eyman are greater than ever before. The nurses' training school, to which reference is made in the report, is an institution which, under the direct personal care of the superintendent, has attained a high standard. It is expected that with this training school developed to its highest point, there will be an increased number of recoveries. Without affecting in any way the comfort or well being of the patients, it is to be noted that an effort has been made in every department to reduce the expense of the institution. Dr. Eyman has a number of original ideas in this connection which when put into effect will doubtless be the means of saving the state many hundreds of dollars annually.

CUBA'S NEGRO PROBLEM.

Cuba is threatened with a race war which, if it comes, will unquestionably hasten annexation. The leaders of the white element, foreign and native, of the population of Havana are bringing pressure, it is said, to bear on President Palma to constrain him to exclude negroes from his state reception in the coming winter. The negroes, on the other hand, threaten to raise a disturbance if Palma refuses to invite them. As the negroes and the mulattoes number about a third of the entire population of Cuba, and as they are clamorous for recognition by the government, the chances are that President Palma will be placed in a very embarrassing position by this race conflict.

All this is calculated to greatly strengthen the hands of the annexationists. With annexation, there would be such an influx of white people into Cuba they would soon be in such a majority that the negro problem would disappear. Cuba, as part of the United States—that is, as a state of the Union—would offer such attractions to the immigration of whites from the United States, as well as from the rest of the world, that the race problem would soon settle itself by putting the whites in an overwhelming preponderance. This is a consideration which must appeal to the Cubans with force. Under annexation the present 1,000,000 white inhabitants would soon reach 2,000,000, while the 500,000 negroes and mulattoes would not be increased materially, for the colored man in the United States moves from one place to another much less than does his white neighbors.

Much can be urged in favor of the equality of the races in Cuba. The negroes did most of the fighting against Spain, and suffered the greater part of the hardships. They thus won the right to recognition which Mr. Palma will find it hard to ignore. But annexation would alter the situation immediately and materially by sending to Cuba a sufficient number of whites to put the state government quickly and completely in their control, as in the Southern states of the union. Even with a free vote and an honest count in the state of Cuba, which is denied to the colored men in half a dozen of our present states, the race problem would quickly settle itself, for the white majority, already larger in the island than it is in many parts of the South, would be doubled in a very few years. This race issue furnishes an additional and a powerful argument in favor of annexation.—St. Louis Globe Democrat.

Asthma
"My daughter had a terrible case of asthma. We tried almost everything, without relief. We then tried Ayer's Cherry Pectoral, and three bottles cured her."—Emma Jane Entsminger, Langsville, O.
Ayer's Cherry Pectoral
certainly cures many cases of asthma. And it cures bronchitis, hoarseness, weak lungs, whooping-cough, croup, winter coughs, night coughs, hard colds.
25c, 50c, \$1.00. All druggists.
Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows.
Daily movements of the bowels are necessary to health. Ayer's Pills are gently laxative, purely vegetable.

DR. EYMAN'S REPORT.
Presented to Governor Nash Tuesday.
MASSILLON STATE HOSPITAL.

There Were Admitted During the Year 431 Patients—The Percentage of Recoveries on the Number Admitted was 24.59—The Percentage of Deaths on Total Number Under Treatment was 5.03—Beneficial Results of New Methods of Employment and Diversion—The Superintendent's Recommendations.

Superintendent H. C. Eyman, of the Massillon state hospital, on Tuesday morning presented the tenth annual report of the institution, previously submitted to the board of trustees, to Governor Nash at Columbus. The report, which was approved by the board, follows in a somewhat condensed form:

On the date of the last report, November 15, 1901, there were remaining in the institution 741 patients, of whom 368 were men and 373 women. There were admitted during the year 431 patients, of whom 253 were men and 178 were women. The whole number under treatment was therefore 1,172. Of those admitted 165 were from homes; 119 were transferred from the Columbus state hospital; 132 were transferred from the Cleveland state hospital, and 15 were from county infirmaries.

There were 226 persons discharged during the year, of whom 132 were men and 94 were women. Of this number 106 recovered, 51 were discharged improved, 10 unimproved, and 59 died. Of those recovered 68 were men and 38 were women. Of those improved 28 were men and 23 were women. Of those who died 28 were men and 38 were women. The percentage of recoveries on the number admitted was 24.59. On the number of acute and possibly curable cases, and exclusive of transfers, was 50.71; the percentage of deaths on total number under treatment was 5.03.

The 56 deaths were due to 19 different causes, some of which were: Paralysis, 8; apoplexy, 5; organic heart disease, 8; organic brain disease, 10; tuberculosis, 6.

The ages of those admitted were as follows: Between 15 and 20 years, 11; between 20 and 25 years, 29; between 25 and 30 years, 41; between 30 and 35, 40; between 35 and 40, 51; between 40 and 45, 57; between 45 and 50, 41; between 50 and 60, 86; between 60 and 70, 46; between 70 and 80, 16; over 80 years, 5; unknown, 7; under 15, 1.

The report of duration of insanity of those admitted was as follows: Under 1 month, 61; between 1 and 3 months, 74; between 3 and 6 months, 47; between 6 and 9 months, 15; between 9 and 12 months, 8; between 1 and 2 years, 31; between 2 and 3 years, 14; between 3 and 5 years, 8; between 5 and 7 years, 6; between 7 and 11 years, 15; between 11 and 13 years, 6; between 13 and 15 years, 3; between 15 and 20 years, 6; between 20 and 25 years, 6; over 25 years, 4; unknown, 127.

Of those admitted during the year, there were native born, 346; foreign born, 58; unknown, 27. Of those remaining there were probably curable 44; possibly curable, 111; chronic and probable incurable, 791.

RECOVERIES.

The report gives the recovery rate based upon the total admissions, as 24.59; based upon acute and probably curable cases, and exclusive of transfers, it is 50.71. By acute cases is meant those whose insanity at the time of admission was of less than 2 years duration, and also exclusive of paresis, which disease is admittedly incurable from the beginning. "This rate," says Dr. Eyman, "we regard as fairly satisfactory. We believe with wider knowledge of causes and conditions, a considerably larger percentage can be obtained. Nearly all of our state hospitals have surgical rooms, and we have no doubt that surgery can be called to our assistance with good results, more in the future than in the past. Speed the time when our legislators will so interest themselves as to provide funds for more effectually applying modern therapeutics."

INSANITY INCREASING.

According to the report, insanity is probably increasing out of proportion to the increase in population in Ohio. The chief factors in the production of insanity are: Heredity, dissipation in its various forms (including intem-

perance in eating and drinking), toxic agents, poverty, worry and anxiety and diseases.

"Civilization and insanity go hand in hand," says Dr. Eyman. "Not that civilization produces insanity per se, but the environment and conditions brought about by our somewhat artificial manner of living, due to the present civilization, induce cares and duties that force the brain of modern man to a very much greater strain than that of primitive man. Forced thus to new, complex and ever changing duties, it has many issues thrown upon it, all differing from the others, and requiring new lines of thought and consequent strain. This, in connection with the mad rush for existence, brings about brain fatigue, and frequently all the disasters consequent upon lack of nutrition to an unstable brain. Now, with this inevitable increase staring us in the face, the question how best to diminish the burden becomes a burning one. In the first place our hospitals should be equipped in the very best manner for aiding nature in inducing recoveries. Then the very best custodial care, with all luxuries and everything which tends to lavish expense, eliminated. Of course our best efforts should first be given toward the recovery of the curable cases. For when a man recovers the use of his reason, we not only save what his actual cost to the state would have been, but we return him to his family and make a bread winner again, so that his presence in the world adds to the wealth of the state. And it can be safely stated that the medical care of the insane is better now than at any former period in the history of the state. A more rigid examination of each individual patient is made and more attention paid to detail; physical, chemical and microscopical examinations are made and a closer inquiry into the etiology and pathology. It must ever be borne in mind that moral and suggestive therapeutics have a fixed and permanent abiding place in the armamentarium of all our institutions of this kind. Employment, amusement and diversion are absolute essentials to the proper management of mental troubles. Proper nursing and kindly care is of inestimable value."

NURSES' TRAINING SCHOOL.

Dr. Eyman says: "Our training schools for nurses are attaining a high standard each year, and the advantage of trained and skilled nurses cannot be over-estimated. We have added a supervisor of nurses to our staff, and find that her services are of much value in clinical and bedside instruction. In addition to other duties this supervisor is required to follow up the lectures given by the physicians with practical instructions as to the proper application of the subject taught, to lecture once a week upon topics assigned by the superintendent, to assist in the diet kitchen, and, in short, to fill in every space where heretofore delinquencies existed. With the training school developed to its highest point we should have an increased number of recoveries. Then, after the greatest possible number of recoveries, still other means must be found to diminish this ever increasing burden."

THE FOOD SUPPLY.

The report says: "Though Ohio has always been liberal in caring for her unfortunates, it is none the less the bounden duty of those in charge of public institutions to see to it that no extravagance of any kind be permitted in any department. The method given by which it is possible to reduce the cost of food is by increasing the products of the farm, garden and dairy. "I should like to emphasize the proposition," says Dr. Eyman, "that the state could, with no hardship upon any one, furnish milk at a greatly reduced cost, by maintaining dairies at each one of our state hospitals. At Dayton, last year, the milk cost a trifle less than 8 cents per gallon. This institution paid 12 3/4 cents per gallon. This year the Dayton authorities claim a considerable reduction, while this institution had to concede an advance to 15 1/4 cents per gallon. With more land and a proper dairy, we could save several hundred dollars a year on the cost of milk alone."

EMPLOYMENT AND DIVERSION.

The gardener's report shows that an effort has been made to utilize, as far as possible, the labor of the patients. Practically all the ordinary labor of the farm is done by them. The acute and feeble cases are not allowed exercise to the point of exhaustion.

In addition to the labor upon the farm, excavations have been made for four new buildings, new drive ways and walks have been laid out and built and a large amount of grading has been done, all with patients' labor. Among the diversions and entertainments have been the weekly dance and through the summer season the weekly concert in the grove on Friday afternoons. On several occasions the Massillon Military band played to appreciative audiences. Dr. Eyman takes this opportunity of thanking the leader and his assistants. The games of tennis, croquet and ping pong have been greatly enjoyed. (On December 19th William McKinley hall was dedicated. Stirring, pa-

triotic speeches and sweet music made the evening long to be remembered. On Christmas eve Mr. O. A. B. Senter gave a very enjoyable entertainment consisting of shadowgraphs and sleight of hand tricks. There were several lectures illustrated with stereopticon given by the superintendent. The hospital dramatic club gave some very enjoyable theatricals. The Elks' minstrels gave an evening of uproarious fun, and lectures, concerts and musical programs were frequently given during the winter months. On February 21st the annual masquerade ball was given in William McKinley hall. On July 4th the usual field sports. On November 13th Mr. W. H. McCollin, the blind entertainer, was with us, and convulsed his audience by his droll stories, largely his own personal experiences.

IMPROVEMENTS

An unusual amount of grading, road making and laying of cement walks have been accomplished. More than four hundred shade and ornamental trees have been planted. William McKinley hall has been completed, and dedicated to the service of the state. This is a most beautiful auditorium and adds greatly to the enjoyment of our charges. Cottages 7 and 8 have been occupied since last May, adding 150 to our capacity. Contracts have been let for building cottages 1, 2, 3, 6, F and Nash cottage. The foundations for cottages F, 1, 2, 3, and Nash cottage are in, and the work on the superstructure will be commenced in the early spring.

EXPENSES.

The per capita cost per annum, including officers salaries, was \$141.39. The per capita cost since the opening, inclusive of officers salaries, was: 1899, \$214.29; 1900, \$168.29; 1901, \$141.81; 1902, \$144.39. The increase for this year is wholly accounted for by the increased cost of nearly all of the necessities, notably eggs and all kinds of meats. Supplies for the institution have been bought, as far as practicable, by competitive bidding and after full advertising. The contract has in all instances been awarded to the lowest bidder, and so far results have been satisfactory. Excessive amounts of supplies are not bought, and careful attention is given to holding contractors to the quality contracted for.

OFFICIAL STAFF.

The staff consists of Dr. J. M. McGeorge, Dr. Charles L. Harmer, Dr. C. E. Emerick and Dr. Caroline C. Colver. Dr. Eyman says: "Our low death rate and satisfactory recovery rate are largely due to the care of our people."

ACKNOWLEDGEMENTS.

Under this heading Dr. Eyman testifies to the faithfulness and ability of the medical staff, Steward Latimer, the storekeeper, supervisors, housekeeper, nurses and employees. He acknowledges the kindness of the Massillon Daughters of Veterans who remembered the old soldiers at the hospital with flowers on Decoration Day. The children of the Richville avenue school are also thanked for gifts of flowers.

Cordial thanks are extended to the Hon. Atlee Pomerene, of Canton, for his address at the commencement exercises, and to the Revs. J. F. Cloney, L. H. Stewart, E. J. Craft and O. P. Foust, who have conducted religious services. Grateful appreciation on behalf of the patients is expressed to the citizens of Massillon who have been liberal with magazines and newspapers.

Dr. Eyman closes his report as follows: "And now, gentlemen of the board, I wish most humbly to express to you my sincere and grateful appreciation of your ever kind and cordial interest in the best care of the patients, my personal welfare and that of my family. Without your continued aid and friendly advice our efforts must fall short of success. Trusting that your assistance and counsel may continue in the future as in the past, and with abiding faith in the constant help of the great Physician, we take up the duties of another year."

SENT TO THE WORKS.

William Brisbin Convicted of Neglecting His Children.

Canton, Dec. 2.—William Brisbin entered a plea of guilty to an indictment charging him with non-support of his minor children before Judge Harter in common pleas court Tuesday morning. Brisbin was sentenced to serve four months in the workhouse and to pay the costs. In passing sentence Judge Harter informed the prisoner that did not remove the obligation to support his children, but that upon his release he would be required to provide for them or place himself in a position for further prosecution. Brisbin and his wife are divorced. He left the city and upon his return was taken into custody on the non-support charge.

That sealbrown taste of a canton flannel tongue speaks from the liver and tells you to take Rocky Mountain Tea at night, genuine, 35 cents. Z. T. Baltzly.

OFFICERS ELECTED.

Several Societies Meet Tuesday Evening.

A NUMBER WERE INSTALLED.

Hiram Chapter, R. A. M., the Knights of St. John, and Lincoln Council, No. 18, of the Junior Order of American Mechanics, Transact Important Business.

Hiram chapter No. 18, R. A. M., at a meeting held Tuesday evening, elected and installed the following officers: Francis Strobel, high priest; Howard Garrigues, king; L. P. Schimke, scribe; A. H. Coleman, captain of hosts; Melville Howald, royal arch captain; W. E. N. Hemperly, grand master of the third veil; Charles Gise, grand master of the second veil; A. C. Heggem, grand master of the first veil; Z. T. Baltzly, treasurer; Charles H. Garrigues, secretary, and S. Higerd, guard.

The Knights of St. John held a meeting Tuesday evening. The following officers were elected: Spiritual adviser, the Rev. H. V. Kaemper; president, L. L. Volkmar; first vice president, George Hoppold; second vice president, William Crone; recording secretary, Emil Converse; financial secretary, Ed M. Ertle; treasurer, Jacob Scharver; trustees, Sebastian Miller, George Weckman, L. H. Bamberger, Joseph Leonard; captain, L. L. Volkmar; first lieutenant, Val Hamil; second lieutenant, George Hoppold. Delegates to the sixth district meetings are Emil Converse and George Weckman. The officers elected will be installed on the first Tuesday evening in January, 1903, by Emil Converse, installing officer of the sixth district of Ohio, Knights of St. John.

At a meeting of the Lincoln council No. 16, Jr. O. U. A. M., Tuesday night, the following officers were elected for the coming year: Councilor, J. J. Wendling; vice councilor, W. J. Masters; recording secretary, J. A. Farrel; financial secretary, R. F. Miller; assistant recording secretary, R. B. Carwford; conductor, Charles Croninger; warden, Daniel Dulabahn; inside sentinel, C. C. Graybill; outside sentinel, R. A. Hardgrove; treasurer, H. W. Elsass; trustees, G. F. Breckel and O. P. Kline. After the election of officers the regular routine business was transacted.

At a meeting of Massillon and Sippo lodges of the I. O. O. F., Monday evening, the annual election of officers was held with the following results: Noble Grand, Edward Heisler; Vice Grand, Robert H. Gow; Recording Secretary, John Crookston; Financial Secretary, C. M. Smith; Treasurer, Wm. Mader. After the election of officers a banquet was served. Many members of the Canal Fulton lodge were present. Degrees were conferred upon six candidates, four from Massillon and two from Canal Fulton.

At a meeting of the Massillon Aerie of Eagles Monday evening, officers for the coming year were elected. In several instances the contests for office were spirited. The election resulted as follows: Worthy president, Frank Vogt; worthy vice president, H. B. Sibila; worthy chaplain, Andrew Ertle; worthy conductor, Ferd Sheer; worthy inside sentinel, H. H. Parnacott; worthy outside sentinel, Alexander Griffith; worthy secretary, George Frantz; worthy treasurer, Charles Mausz; worthy physician, George V. Ess; worthy trustees, Charles Remley, Edward Snyder and William Crone.

COAL STILL SCARCE.

New York is Short 4,000 Tons Per Day.

New York, Dec. 3.—Upon the weather only depends whether New York will be visited by the greatest coal famine in its history, says the Herald. Men who are interested in the various branches of trade declare they cannot get more than a day away from the condition that existed at the end of the coal strike, and they will not be able to get further away this winter. If a blizzard should tie up the railroads, three days will see the few remaining tons selling at prices which will make them luxuries.

At the offices of the coal carrying roads it was said every effort is being made to meet the test when it comes, but there was little hope. There is coming to tidewater daily about 100,000 tons of hard coal. About 26,000 tons of this comes to New York. The rest goes to New England and Canada. New York's actual demand in winter is about 30,000 tons a day. The supply, therefore, is about 4,000 tons short. As it must be distributed fairly no one dealer can fill an entire order, nor can a customer get what he desires.

LOCAL HAPPENINGS.

Iscovered this Week by Independent Investigators.

Mr. and Mrs. Bert Mitzel have moved from Canal Fulton to Massillon.

Mr. and Mrs. Emmet Hile have taken up their residence in Plum street.

Miss Nellie McCallam, of Pittsburg, is a guest at the home of her aunt, Mrs. A. Per Lee Pease, in Cherry street.

Mrs. William N. Thornburg, of Detroit, is the guest of her sister, Mrs. James N. Merwin at the latter's home in South East street.

Mrs. A. C. Wales, who sailed from Genoa on the steamer Lahn, November 19, has reached New York and will leave for Massillon on Friday.

Benjamin Eason, Wooster's oldest attorney, died Monday night, aged 80 years. His son, Samuel B. Eason, is judge of the common pleas court of Wayne county.

The benefit given Art Simms at Akron, Tuesday night, netted three hundred dollars. Simms has been on the disabled list for the past week or two, having sustained a broken rib while sparring with Gus Ruhlman.

Mrs. Joseph Johnson, of North Lawrence, has returned home after a three months' visit with friends and relatives in Stafford, England. Mrs. Johnson is at present at the home of her daughter, Mrs. James Wooley.

Peter Gow has been granted a permit by City Clerk Seaman to erect a six room frame dwelling house, costing \$1,400, in Green street. A permit has also been issued to H. Piper for the erection of a five room frame dwelling at a cost of \$1,000 in Ruth street.

The marriage of Miss Mabel Cough, of Canton, to Mr. William Garrigues, son of Mr. and Mrs. Howard Garrigues, of this city, will take place at 8 o'clock Thursday evening at the home of the bride's parents, Mr. and Mrs. John Cough, in Canton.

The Rev. Girard Patterson, of the church of the Incarnation, Cleveland, will conduct services at St. Timothy's church Sunday morning and evening. The Rev. E. J. Craft will fill the pulpit of the Episcopal church at Oak Park, Ill., on Sunday. Mr. Craft will also visit his brother-in-law, the Rev. C. M. Coburn, pastor of St. James Methodist church in Chicago.

Two little children of John and Anna Berran, of Massillon, were adopted into other homes in probate court Monday afternoon. Inez, aged one year, was adopted by Harvey and Laura Stauffer, of Massillon, and Thelma, aged five, was adopted by Joseph and Marie Smith. Owing to the mental and physical condition of the mother she was unable to take care of her offspring and other homes were secured for them.—News-Democrat.

In comparing the prices of foodstuffs in Canton at present with those which prevailed a year ago, the News-Democrat says: "Meats are also cheaper. A year ago the price was prohibitive, the better grades of steak selling at 18 and 20 cents a pound. Within the past few weeks in this city the retail price of nearly all grades of steak has been reduced 4 cents a pound, so that round steak now sells for 14, and sirloin at 16 and 18 cents. Roasts bring 10 and 14 cents and the cheaper sorts are selling at 8 and 10 cents a pound."

Four arrests were made by Game Warden Dangeleisen Monday for violation of the game laws of Ohio. The prisoners, William Penman, John Baughman, Albert McFarren and Frank Steitz, all living in the vicinity of Elton, were brought before Squire Sibila and entered a plea of not guilty. Mr. Penman demanded a jury trial, and the hearing was set for Friday. The complaint was filed by Charles Biehl, on whose farm it is claimed the hunters were trespassing.

The application for a charter for the Massillon City Hospital Association was forwarded Monday afternoon. It was first necessary to send to the recorder's office at Canton for proper registration, and this consumed considerable time. It is expected that the charter will be here by the latter part of the week. In the meantime the soliciting committee appointed at the meeting last week is securing many names. A third meeting will be called in about ten days for the final organization and election of officers.

About seventy-five Massillon members of the German Pioneer Society with their families went to Navarre Monday evening, where a social session was held in connection with the Navarre members. About fifty Navarre members and friends were present. During the evening recitations, declamations and addresses were listened to, after which a debate took place. A delicious luncheon was served. The party left Navarre in a special train of three electric cars at exactly at 11:30, reaching Massillon at 12 o'clock. The question debated was: "Resolved, That Wurttemberg was the most prominent state in Germany." The affirmative was taken by G. and T. B. Schott, and the negative by Henry Suhr and Jacob Pinkle. The affirmative won by almost a unanimous decision of those present.

COUNTY SEAT NEWS

Court in Session in Both Rooms.

ANOTHER INQUEST IN LUNACY.

Mrs. Callahan's Case is Somewhat Puzzling to Attorneys—Death of City Councilman's Wife—John B. Hitz, a Veteran of the Civil War, Dead.

Canton, Dec. 1.—Common pleas court convened in both rooms Monday morning, Judge Harter occupying the bench in court room No. 1 and Judge Ambler occupying the bench in court room No. 3. Both jurists devoted the forenoon session to motions, demurrers and preliminary matters. In the case of T. S. Walker's administrator against the International Fire Extinguisher Company and others, a motion to make the petition more definite and certain was sustained by Judge Harter. The court also sustained the motion to dismiss the appeal from justice's court of the case of Eli Yoder against Sarah Yoder. It was an ejectment case and Sarah Yoder asked that the decision be reversed. Attorneys Welty and Allbaugh represented the defendant.

Judge Ambler heard the motion for a new trial in the case of Effie A. Hirst against the Equitable Assurance Society of the United States. Mrs. Hirst recovered a judgment for \$2,500 and interest on a claim in which an insurance policy on the life of her late husband, George Hirst, of Cincinnati, was involved. The defendant corporation asked for a new trial. Attorneys Lynch, Day & Day and Attorney Alexander, of Cleveland, appeared for the insurance company and Attorneys Webster & Turner for Mrs. Hirst.

Mrs. Jennie A. Marshall, wife of Councilman William W. Marshall, died Sunday morning at the home of her mother, Mrs. Alice Muckley, at No. 209 Sixth avenue. The deceased had been ill for the past six months, tuberculosis being assigned as the cause of her death. She was born in Massillon, September 30, 1875. She is survived by her husband, mother, a sister, a brother and two children. Mrs. Marshall was a graduate of the Aultman hospital training school for nurses. She was a member of St. Paul's Episcopal church, from which the funeral services will be held Tuesday afternoon at 2 o'clock.

Steps were instituted before Judge Harter Monday morning for further inquiry as to the sanity of Mrs. Rachel Callahan, the Alliance woman under indictment for arson. Both Prosecutor Day and Attorney Craine, representing the woman, suggested to the court that further proceedings be had. Mrs. Callahan has been in jail for some months. She was tried before Judge Augst on the question of her mental responsibility and the opinion of experts at that time was that she was sane. Since then her actions in the county jail have been such as again raise a doubt, inasmuch as she has had no incentive to feign insanity. In order that the indictment may be held against her it will be necessary to submit the matter to either a regular or a special jury in common pleas court. To hold another inquest in probate court it would be necessary to nolle the indictment, and this is not deemed advisable by the prosecutor. Just what procedure will be resorted to has not yet been determined by the court. Mrs. Callahan is accused of setting fire to a dwelling in Alliance.

Joseph Pfendler, a barber, aged 49 years, died Sunday at the home of his aunt, Mrs. Sophia Pfendler, No. 437 North Cherry street. He suffered from rheumatism for a long time, but bronchitis is assigned as the cause of death. Deceased was a member of the barbers' union. The funeral will take place from St. Peter's Catholic church on Wednesday morning at 8:30 o'clock.

John B. Hitz, a veteran of the civil war, died at his home, 819 High street, Saturday evening. He was a cobbler by trade and lived in Canton 33 years. Deceased was born June 15, 1843, in Switzerland. He served in the 173rd Regiment, New York volunteers. Funeral services will be held at 8:30 o'clock Tuesday morning from St. Peter's Catholic church.

Ireland's Population Decreasing. The recent census of Ireland shows a marked decrease in its population, which has been largely attributed to the famine throughout the island, causing the death of thousands of people, and forcing many others to emigrate. This brings to mind quite forcibly the absolute necessity of having plenty of good food if we would prolong life, but after all it is not a question of the amount eaten that makes people strong and healthy, but the way it is digested. Dyspeptic people cannot enjoy their meals, and consequently always feel depressed, irritable and nervous. They should try Hostetter's Stomach Bitters at once. It is a specific remedy for flatulency, belching, indigestion, dyspepsia and nervousness, and is backed by a record of fifty years of cures.

Entertainment committees will find just what they want in the way of invitations, programmes, etc., at The Independent office.

MRS. CALLAHAN INSANE.

Will be Placed in the Massillon State Hospital.

Canton, Dec. 2.—Mrs. Rachel Callahan, of Alliance, was found not sane by the regular jury in common pleas court, Tuesday morning. The inquiry as to her sanity was conducted by Prosecutor Day and Attorney John W. Craine. Dr. L. E. Flickinger, Dr. J. P. Schilling and Dr. T. C. McQuate testified that the woman was insane. Deputy Sheriff Harvey Zaiser and Turnkey Charles McKinney testified as to her particular actions since she has been in custody. Prosecutor Day was convinced of her insanity and therefore submitted no contradictory evidence. Mrs. Callahan upon hearing the verdict remarked: "I wonder when the jury escaped." She will be taken to the Massillon state hospital. Mrs. Callahan was indicted by the grand jury for arson. She was accused of setting fire to a dwelling in Alliance, causing a small amount of damage.

A PLANT CONDEMNED.

Sewage Disposal at Children's Home a Failure.

Canton, Dec. 1.—Judge Henry W. Harter has completed his examination of the annual report of the board of visitors of Stark county charitable and penal institutions and it is now in the hands of the clerk of courts to be placed on file. That portion of the report which refers to the sewage disposal works of the Fairmont Children's Home was referred by the court to Prosecutor R. H. Day. The visiting board in their report say that "the sewage disposal works of the institution, which was built and guaranteed by a firm doing business in Alliance, and paid for by the counties of Stark and Columbiana, has been a failure and cannot be used in its present condition." The court has instructed the prosecuting attorney to investigate the matter and the bond of the contractors and take such action as may be deemed right and necessary to protect the interests of the county and the taxpayers.

COLLEGE DEDICATION.

Five New Buildings Completed at Wooster University.

A Wooster dispatch to the Cleveland Plain Dealer says: A train load of people from Cleveland will come to this city December 11 to attend the dedication of the new buildings of the Wooster university, the party being chaperoned by L. A. Severance. The past year has been a most remarkable one in the history of the institution. A little less than twelve months ago the main building, which practically constituted the entire building equipment of the college, was destroyed by fire with all the contents. The loss was estimated at over \$300,000 on which there was only \$60,000 insurance.

What was thought to be a dire calamity turned out the best thing that ever happened to the institution for the friends of education rallied to save the university and in a little more than two months from the date of the fire over \$400,000 had been pledged for a new and greater Wooster. Of this sum \$100,000 was given by Andrew Carnegie, \$70,000 by L. A. Severance, of Cleveland, the balance coming from all parts of the world. Five magnificent structures are now practically ready for occupancy and will be dedicated on the first anniversary of the conflagration. The buildings are said to be the most modern college structures in the world.

Kauke hall, named for Capt. John H. Kauke, of Wooster, cost \$100,000; Severance hall for L. A. Severance of Cleveland, \$70,000; Taylor hall for the Rev. A. A. E. Taylor of Columbus, \$60,000; Scovet hall, for the Rev. Sylvester F. Scovet of Wooster, \$50,000; heat and power plant, \$55,000. These figures are exclusive of fixtures and equipment. The dedication exercises are to be of an elaborate character.

THE CONTRACT LET.

Work on New Erie Street Block to Begin at Once.

The new building which is to be erected between North and Plum streets on the west side of North Erie street will be begun within the next few days. The owners are Messrs. Howard Lucas, C. N. Oatman and C. King. The contract was awarded to C. W. Wendling Monday morning, the contract price being close to \$13,000. The building will be a two story brick, the second floor beings used for flat purposes. The north store room will be occupied by Fred Justus, the plumber, the center section by the Lucas laundry plant and the south store room by the Oatman Printing Company.

2 Per Cent. on Checking Accounts

and 4 per cent. on Savings Deposits at Pittsburg Trust Company. Interest compounded semi-annually. Capital, surplus and profits exceeding \$6,000,000, and deposits over \$10,000,000. Do all your banking by mail. Send postal for two hundred year calendar free. 323 Fourth Ave., Pittsburg, Pa.

MANUFACTURERS' ORGANIZATION.

Leading Plants in Canton Interested.

OBJECT MUTUAL PROTECTION.

Directors of the County Workhouse Transact Routine Business—President Roosevelt Will Attend McKinley's Birthday Celebration in Canton, January 29.

Canton, Dec. 3.—Canton has a new organization called the Canton Manufacturers' Association. It was formed at a meeting of manufacturers held in the city hall Tuesday evening. The object of the association is mutual protection and benefits from an interchange of experiences and ideas. About a score of representatives from the different manufacturing concerns in the city were present. A constitution was adopted and it was decided to hold another meeting next Tuesday evening to elect permanent officers. A temporary organization was effected by choosing H. A. Cavanaugh, of the Bucher & Gibbs Plow Company, as president; Charles P. Duff, of the Elbel Company, secretary; and Jay M. Cogan, of the Aultman Company, assistant secretary.

The board of health adopted a resolution at its meeting Tuesday evening compelling physicians to report all births within the city. The resolution provides that all physicians, midwives or other persons assisting or giving advice during the birth of any child within the corporate limits of Canton, must report the same to the health officer on blanks furnished for that purpose. The resolution goes into effect January 1, 1903, and is in accordance with a state law. Health Officer Marchand reports very little diphtheria in the city and no scarlet fever.

The jury in the case of J. A. Braucher and Lydia Brancher, plaintiffs in error, against J. P. Strausser, as supervisor of district No. 2, Jackson township, defendant in error, returned a verdict in favor of the Brauchers about 8 o'clock Tuesday night. The defendant, Strausser, asked that upon final adjudication of the case he be awarded a judgment for \$5.55. The jury decided that he was not entitled to anything. The controversy arose over a hedge fence in Jackson township. Attorney Sterling and R. A. Pinn represented the Brauchers and Attorney C. T. Meyer, Strausser.

Dr. Clarence E. Exline of 1724 Navarre street filed a deed of assignment in probate court at 7:30 o'clock Wednesday morning. Attorney W. Q. Wernitz is named as assignee. Attorney Wernitz estimates the assets at \$3,000 and the liabilities at \$5,000.

The annual meeting of the board of directors of the Stark county workhouse took place at that institution Tuesday morning, with all members present with the exception of President J. P. Fawcett. It was expected that the election of superintendent and matron of the institution would come up at this session, but owing to the absence of a full board the matter was deferred for one week, when the board will meet again. The directors listened to the reading of the monthly reports and audited a number of bills, after which a general discussion of matters relative to the management of the institution took place. The recommendations of the members will be made at next Tuesday's meeting.

The committee of the Republican League having in charge the arrangements for the banquet on the anniversary of McKinley's birthday, January 29, have received assurances that President Roosevelt will be in attendance.

THE CLEVELAND HOSPITAL.

Annual Report Submitted to the Governor.

Columbus, O., Dec. 3.—The annual report of the trustees of the Cleveland state hospital for the year ending November 15 1902, filed with Governor Nash yesterday, shows an unusual number of recoveries at the institution. The number of patients admitted during the year was 313, of whom 125 were women, and the percentage of recoveries, based on the number admitted, was 48.87. The whole number of inmates at the hospital during the year was 1,126.

The per capita cost of maintenance, based upon the number of inmates actually confined in the institution, net current expenses and salaries and trustees' expenses was 136.19. If the purchase of furniture for the institution and repairs is included the per capita cost was \$156.37.

The expenses for the year were as follows: Current expenses, \$151,492.97; officers' salaries and trustees' expenses, \$8,897.83; ordinary repairs, \$10,463.64.

THERE IS NO SUBSTITUTE

CANNON SURE OF SPEAKERSHIP.

Dalzell, of Pennsylvania, Withdraws.

EX-SPEAKER REED VERY ILL.

Senator Cullom Introduces an Anti-Trust Bill—Much Opposition to Immigration Bill Passed by the House Expected in the Senate.

Washington, Dec. 3.—Representative Dalzell, of Pennsylvania, has withdrawn from the contest for the speakership of the house of representatives in the Fifty-eighth congress in favor of Representative Cannon, of Illinois, who has been endorsed for that office by the Pennsylvania delegation in the house. This practically assures Mr. Cannon a unanimous vote for speaker in the Republican caucus.

Mr. Dalzell's announcement and the subsequent action of the delegation took place at a dinner given by Senator Penrose last night at the new Willard Hotel, at which were present Senator Quay and the members and members elect from Pennsylvania in the house. Representative Sibley acted as chairman of the informal meeting which followed the dinner, and Representative Olmstead offered the resolution endorsing Mr. Cannon's candidacy. Complimentary remarks were made to Mr. Dalzell by Senator Quay and others, after which the motion was carried unanimously. Mr. Dalzell then announced his withdrawal in favor of Mr. Cannon. A committee consisting of Messrs. Dalzell, Bingham and Olmstead was appointed to wait on Mr. Cannon and apprise him of the delegates' action.

Ex-Speaker Thomas B. Reed had a sudden and quite severe attack of gastritis Tuesday evening. He was prostrated for a time, but Dr. Gardner, who was called, succeeded in relieving his patient. The sudden illness of the ex-speaker has caused considerable alarm to his friends, but at a late hour Mr. Reed was getting on better than had been feared earlier in the evening.

Senator Penrose, chairman of the Senate committee on immigration, said yesterday that if there should be a favorable opening he would make an attempt today to call up the immigration bill which had passed the House in the last session and was favorably reported by the committee and if not he would make the effort later in the session. "I mean to press the bill," he said, "and I hope to see it become a law during the present session, although I expect that considerable opposition will be encountered just as was the case in the consideration of the Chinese bill."

Representative Foss, of Illinois, chairman of the House committee on naval affairs, had an extended conference with the President about naval matters and especially respecting the lack of officers to man the big fighting ships properly. Mr. Foss has a plan for the increase of the number of naval officers with which the President is impressed favorably. It is that congress enact a law doubling the number of cadets annually appointed to the naval academy, during a period of twelve years. The operation of such a law, it is said, would furnish a sufficient number of officers to meet the needs of the service and at the end of twelve years, the number of cadets annually appointed could be reduced with safety to the present number. Mr. Foss regards it as quite likely that his committee will endeavor at the present session to meet

the existing deficiency in the number of naval officers.

A majority of the committee on territories of the Senate agreed to report a bill for the admission of Oklahoma and Indian Territories as one state, under the name of Oklahoma. New Mexico and Arizona are not in the bill.

The judiciary committee of the House held its first meeting yesterday and took prompt action in the direction of getting an anti-trust measure before congress at the earliest possible moment. Mr. Jenkins, of Wisconsin, who has become acting chairman, owing to the retirement of Judge Ray, referred it to the sub-committee, of which Mr. Littlefield, of Maine, is chairman, and that sub-committee will go to work at once. It is the hope of Mr. Littlefield that a bill can be reported out of the full committee before the adjournment for the Christmas holidays. The committee today unanimously voted to request the speakers to appoint Mr. Jenkins chairman of the committee.

Senator Lodge introduced a bill today to regulate the currency in the Philippines by establishing a gold basis.

HE IS A FRAUD.

Catholics Warned Against a Bogus Priest.

Cleveland, Dec. 3.—The Catholics of the city are on the lookout for a bogus priest, who has been wandering about the country obtaining money under the guise of a missionary. It is said that he attempted the ruse in Columbus, but was discovered and made his escape. He is reported to be on his way to Cleveland. Chancellor Honck yesterday received a telegram from Columbus informing him of the departure of the man in this direction. The man's game is to go around enlisting sympathy in a Florida mission and collecting money therefor. The telegram is as follows: "Look out for clerical swindler, fair and heavy set. Strong features, of fine appearance. Calls himself Father Brady. He is a fraud."

RELATIONS ARE STRAINED.

England Sends Fleet to Venezuelan Waters.

Hamilton, Bermuda, Dec. 3.—One British warship sailed for Venezuela today. Three will follow tomorrow, and two others are under orders to the same destination. It is known upon good authority that the British minister in Caracas, Mr. Hagarde, has requested the admiral of the British fleet at Bermuda to send warships immediately to La Guayra in consequence of the continuous bitter attacks by the Venezuelan official press upon the British government. Relations between Great Britain and Venezuela are becoming, the dispatch asserts, more and more strained.

It is officially reported from Wilhelmstadt, Corcoran, that a stranger who is asserted to be a German naval lieutenant, arrived in Maracaibo, on Nov. 10, and carefully inspected that city. He took photographs of the forts and the surroundings and studied the bar, channel and currents at the entrance to the port. The German gunboat Panther arrived at Maracaibo several days later and the man went on board.

You've got to hustle all the time to keep in the swim. If you are slipping down the ladder of prosperity, take Rocky Mountain Tea. Makes people strenuous. Z. T. Baltzly.

IF YOU HAD A NECK As Long as This Fellow, and had SORE THROAT ALL THE WAY DOWN TONSILINE WOULD QUICKLY CURE IT. 36 and 40c. All Drug Stores. THE TONSILINE CO., CLEVELAND, O.

MRS. ANDRES DIES SUDDENLY.

Stricken With Apoplexy
Sunday-Afternoon.

SHE WAS FOUND UNCONSCIOUS.

The Deceased was a Life-Long
Resident of Massillon—Death
of a Former Massillon Resi-
dent at Canton—The Funeral
of the Late William Miller.

Mrs. Margaret Andres, aged 60 years, died suddenly of apoplexy at her home in West South street on Sunday afternoon at 2 o'clock. Mrs. Andres had gone out to feed the chickens and was found in an out house in an unconscious condition about fifteen minutes later by her son, Felix Andres. She was removed to the house and by the time a physician had arrived she had passed away.

The deceased was a life long resident of Massillon. Her survivors are her children, Mrs. Emma Ockelman and Mrs. Clara Maerburg, of Dayton, and Mrs. Theresa Merritt, Frank Andres and Felix Andres, of this city. The funeral arrangements will be announced later.

MRS. WILLIAM MARSHALL.
Mrs. William Marshall, of Canton, formerly Miss Jennie Larmer, of this city, died at the home of her mother in Smith avenue, Canton, Sunday morning at 5 o'clock. The funeral will be held Tuesday afternoon at 2 o'clock from St. Paul's Episcopal church. The burial will be in West-lawn cemetery.

THE MILLER FUNERAL.
The funeral of William Miller, who died at Denver, Col., last Wednesday took place in Burd's hall on Sunday afternoon at 2 o'clock. The deceased was at one time treasurer of the local Stonecutters' Union, but for six months previous to his removal in March to Colorado he had been working in West Virginia.

The funeral was conducted by the Rev. Mrs. W. L. Reed, of Toledo, and the service used was that of the spiritualist church, the deceased having been for a number of years a great worker in that church. The pall bearers were Messrs. Burd, Blanchard, Gumm and Snively, of this city, and Mr. Yockey, of Canton. Interment took place in the Massillon cemetery.

NAVARRETES ARRESTED.
Caught in Canton With Concealed Weapons.

Canton, Dec.—Joseph Plomber and Nick Gamble, two Italians, hailing from Navarre, were arrested by the police Sunday night on charges of intoxication. When searched the men proved to be veritable walking arsenals, being armed with stiletos and dangerous looking revolvers. The charge was changed to carrying concealed weapons. Plomber was fined \$1 and costs for intoxication, and 10 and costs and ten days in the workhouse for carrying concealed weapons. Gamble was fined \$10 and costs and given ten days for carrying concealed weapons.

OHIO'S CENTENNIAL.

Distinguished Men Will Participate in Ceremonies.

Columbus, Dec. 1.—It has been decided by the joint committee of the Ohio Archeological and Historical Society and the commissioners appointed by Governor Nash to invite President Woodrow Wilson of Princeton university to deliver the address at the celebration in Chillicothe next May of the centennial of the admission of Ohio as a state. President Wilson is an Ohio man, having been born near Steubenville, and has always taken a deep interest in the early history of his native state.

The presence of President Roosevelt will be urged, as will that of the governors of the five states of Ohio, Indiana, Illinois, Michigan and Wisconsin, formed out of the northwest territory. The governors of all the states will be invited. Senator Daniels, of Virginia, will deliver an address and it is hoped to have the French republic represented.

CANTON EDITOR SUED.

Mrs. Von Landberg Wants an Absolute Divorce.

Syracuse, N. Y., Dec. 1.—Mrs. Marie Von Landberg, of this city, has brought action for absolute divorce from Alexander Von Landberg of Canton, O., the editor of a German paper there.

About seven years ago Von Landberg was prominent in the Republican politics of this city. He was editor of the German Union and collector of internal revenue for this district. He served for many years on the school board. He astonished his friends by publishing in his paper a farewell, and gave a complete history of his domestic troubles. He gave his wife most of his property and the three children. It is said that he will not oppose the divorce.

BONEBRAKE DENOUNCED.

Accused of Working for Book Ring's Interest.

Columbus, Dec. 1.—The report of C. F. Davis, chairman of the committee on legislation of the Ohio Federation of Labor, which is just out, is severe on State School Commissioner L. D. Bonebrake and C. F. Seese, representative from Summit county, because of the failure of the legislature to take action on the school book bill last winter. He charges that Professor Bonebrake used his influence in behalf of the school book ring, and that Mr. Seese, as chairman of the committee of the house, to which it was referred, obeyed Mr. Bonebrake's orders. It is recommended that if Mr. Seese becomes a candidate for state school commissioner he be opposed by organized labor.

TO STAMP OUT DISEASE.

Secretary of Agriculture in Charge of Work.

Chicago, Dec. 1.—Secretary of Agriculture Wilson, who is in Chicago, says the West is not to suffer on account of the foot and mouth disease in cattle in New England. He says he expects to stamp out the disease which is now at a standstill. Several hundred veterinary surgeons will be sent to the locality and will inspect every cow, sheep and hog.

No man can cure consumption. You can prevent it though. Dr. Wood's Norway Pine Syrup cures coughs, colds, bronchitis, sore throat. Never fails.

ANECDOTE OF KRUPP.

Famous Gunmaker Who Preferred to Be the First Burgher.

A German who for a long time held a confidential position in the late Herr Friedrich Alfred Krupp's works at Essen and who is now in New York recently gave to a reporter of the New York Herald the following details about the famous gunmaker:

Herr Krupp, owing to a congenital weakness of the heart, was forced to leave the German army soon after he entered the barracks at Karlsruhe. When his father asked Kaiser Wilhelm I. for his son's discharge from military service, the emperor replied in acquiescence, saying, "I can get many dragon officers, but only one Krupp."

He was a man of simple tastes and strict daily regimen and very democratic in his relations with workmen and domestics. In the Schloss Hugel he often entertained royalty, and the air of democracy which pervaded the castle seemed to affect even the most exalted of personages. He spent his winters in Capri, where he had built a villa.

His office was in the original cottage occupied by his grandfather and father. It was called the "stammhaus," and the furniture of his predecessors was left standing just where it had stood in their time. The only new additions were a telephone and a modern desk. Here Herr Krupp could be approached without formality by every workman.

He never would accept a title, often remarking, "I would rather be Krupp, the first burgher, than Von Krupp, the last noble." He was five feet eight inches in height, had a high forehead, was somewhat complexioned, had an aquiline nose, wore eyeglasses, was portly and did not dress in the mode. It was said of his clothes that they were made by his grandfather's tailor.

In politics he was not so democratic as in social and commercial life, being a member of the National Liberal party. He was elected to the reichstag three times, but when last a candidate was defeated by the Catholic vote, most of his workmen voting against him. On the evening of his first election a great throng from Essen went to the castle to congratulate him. While Herr Krupp was addressing them many of the crowd broke into his wine cellar and helped themselves to rare vintages. "They were connoisseurs," said Herr Krupp when he surveyed the broken bottles. "Ah, well, I suppose my speech was dry."

He delighted in aquatic sport and every afternoon went to the river Ruhr, where he had built a boathouse, and in company with an English oarsman employed by him as trainer, he passed an hour or more in rowing.

DEPEW'S CLEVER CAT.

Trick Performed by Tom, the Senator's Wonderful Feline.

Among the cats that may compete in the cat show to be soon held at Washington is a handsome gray fellow belonging to Senator Depew, says the New York Times. The cat bears the name Tom. It is not known whether or not he is named for the senator's distinguished colleague from New York, but it can be said that Tom is clever and tricky and devoted beyond measure to his master and mistress. That Tom can think can scarcely be doubted. He is very sagacious and frequently outwits his master. It is said he has learned to smile at the senator's jokes.

Tom has learned a trick that is often shown to guests at the Depew home. Under the dining room table is an electric bell for the purpose of summoning a servant. Whenever Tom is fastened up in the dining room, he immediately jumps on this button and pushes it with great vigor until some one arrives and lets him out. Whether by accident or otherwise, Tom learned that whenever the button under the table was pushed some one entered the door, thus opening it.

BALDWIN'S NOVEL IDEA.

Famous Horseman Will Move House of His Birth to California.

It was recently announced at Hamilton, O., that E. J. ("Lucky") Baldwin, the California horseman, who recently visited his birthplace near Millville, arranged while at Hamilton to have the house in which he was born removed in pieces to his famous Santa Anita ranch near Los Angeles, says the Cleveland Plain Dealer. Baldwin, who is seventy-four years old, has a fancy that he wants to spend his last days in the house where he was born.

The structure has a history. Parts of the building were brought to Ohio from Virginia by Baldwin's grandfather, who was the first mail carrier between Cincinnati and Hamilton. The removal of the old house will begin soon.

A Result of Zola's Fate.

The Paris sweeps are having quite a good time of it just now. The tragic death of Zola has created quite a soot scare, and now there is a perfect craze for clean chimneys. Instead of inquiries about the weather, the usual remark after greeting in Paris now is, "Have you had your chimney swept yet?" and, if not, "Remember the fate of Zola."

Plan to Exploit Egypt's Coalfields.

Practical measures are now in progress with a view to exploiting the various coalfields existing in Egypt and elsewhere on the direct eastern route. The Egyptian government has granted concessions for this purpose to Edward Nicholls, an Englishman.

New Use For Crematories.

Crematories for the destruction of the bodies of animals which have died of infectious diseases are to be erected in Silesia.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

And Watch the Calendar.
CHRISTMAS IS COMING.
Less Than Six Weeks Intervene.

Our Holiday Stock is daily arriving, and soon our store will be full of things practical and things ornamental; things for domestic use and things for personal adornment, that best answer the question now uppermost in your thoughts.

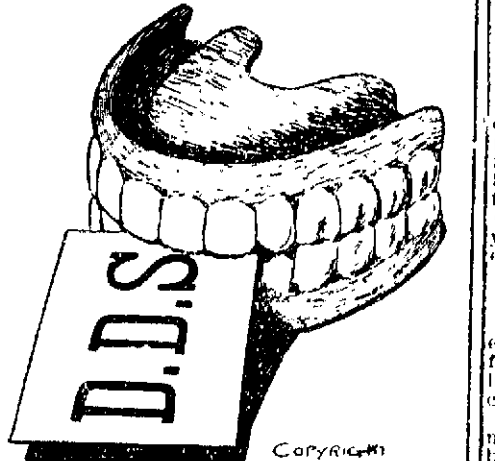

WHAT SHALL I GIVE?

Watch our ads, and our store.

DR. KUTCHIN, Ex-U. S. Surgeon, Columbus, Ohio.
Is a graduate of two of the leading medical colleges in America. Licensed by the State of Ohio.

WHEN OTHERS FAIL, CONSULT
DOCTOR KUTCHIN
20 Years Experience

Recognized by the entire medical fraternity as the
LEADING AND MOST SUCCESSFUL SPECIALIST
IN THE WORLD.

He cures sick men and women, and has an established reputation for honesty and reliability. He keeps his promises.

The Bible says, "In the mouths of two or three witnesses shall every word be established." Here are several witnesses.

Dr. Kutchin has hundreds of such testimonials, but never publishes a name unless asked to do so. Read what these cured and happy people have to say.

WHY DON'T YOU SEE THE DOCTOR BEFORE IT IS TOO LATE?

SNATCHED FROM THE JAWS OF DEATH.

I was desperately ill for several years with Bright's Disease of the Kidneys. I had as good as died when I was taken to the hospital. They did not help me. I was almost blind, and the doctors gave me up to die. My father took me to Dr. Kutchin, and while he would not promise to cure me, he gave me a chance. I have recovered with him for 4 months. Now I can go any place and am as good as new. I feel about as well as ever. I cheerfully recommend Dr. Kutchin. Will answer letters if stamp is enclosed. MRS. CHARLES YANNAYON, Baltimore, Ohio.

THIS FRENCHMAN'S EXPERIENCE IS GOOD READING.

Versailles, O., April, 1901.

For seven years I never drew a well breath. I took Peruna and all the other patent medicines until I had enough bottles as in my house to start a drug store. I had seven or eight local doctors. Nothing ever helped me. Finally I went to see Dr. Kutchin, and he pronounced my disease Bronchial Catarrh. In three months I gained eighteen pounds. I am as good as new. Dr. Kutchin is very reasonable in his charges and I would have saved hundreds of dollars if I had gone to him sooner. I advise all the sick to doctor with him, for they will regret it. JOSEPH SAINTONON.

CURED SEVEN YEARS AGO.

I was in deep trouble 7 years ago. In fact, I was about dead. I had a bad case of catarrh of the stomach and disease of the kidneys. I could not do any work without pain. I was bloated, nervous, sleepless, with pain in my back and a tired and worn feeling. I used to get up in the morning more tired than when I went to bed. Nothing helped me. I had often heard of Dr. Kutchin and I determined to go and see him. He cured me. I owe my life to him. This was six years ago. I keep a card of his name for my friends. I advise all the sick to go and see Dr. Kutchin. If he can't do you good, he will refund your money. He is reliable in every way, and you can depend on him. I will answer letters enclosing stamp. G. ADAMS, Cortland, O.

ONE PATENT WRITES.

"I was brought up on a farm, but at 20 was a nervous wreck. I was morose, despondent, and a little of a dandy. I was thin, with dark circles, no ambition, cold hands and feet; memory poor; back weak; dragging feeling in joints; various nervous prostration; the heart; hair loose; pimples on face. My hollow cheeks, stooping form and downward countenance revealed the blight of my existence. Doctors treated me for years, but could not help me. I was recommended by a friend to see Dr. Kutchin. His treatment made me a different man. I was radically and permanently cured. My nerves became strong—my blood pure—gained 10 pounds—eyes bright and clear—new life opened up, and I felt myself a man in every respect—mentally and physically. The doctor has been visiting this county for eight years. CONSULTATION, EXAMINATION AND ADVICE FREE AT

THE BEE HIVE

Second Anniversary Sale

Starts Tuesday Morning, Dec. 2. Lasts 10 Days.

A Bargain Celebration of the Opening of the New Store Two Years Ago.

OUR second year's business in the New Store Building is just at its close. Two years ago on the 30th of November we opened the doors to the public—a day in the history of the store that we shall always remember. This year we will celebrate the occasion with a

Great 10 Days' Anniversary Sale.

A sale with bargains to make it notable. Rare underprice values will be in the sale and wonderful specials secured recently by our buyers in the markets will be included. It will be a grand array of merchandise attractions that will appeal strongly to economical people and bring throngs of buyers to our counters.

Read the Circulars for Particulars

of a few of the "good things" in the sale—things that most people must have—yet among the offerings at wonderful price inducements.

Remember the Sale Starts Tuesday Morning, Dec. 2,

THE BEE HIVE

NEARBY TOWNS.

BARBERTON.

Barberton, Dec. 2.—Schaufala Bros. are enlarging their building to meet the requirements of their increase of business.

Dr. C. Lee Graber, of Mt. Eaton, was a visitor in town Wednesday.

Miss Teresa Kanada and Miss Louisa Bovine, formerly of Mt. Eaton, but now of Barberton, were guests of Mr. and Mrs. J. J. Wampler during the past week.

Philip Sauer moved his family here Tuesday from Rittman.

There are no more cases of smallpox in Barberton.

Engine No. 3, of which F. L. Hunsinger is engineer and August Key fireman, and engine No. 250, Elge Robinson engineer and Mr. Weirich fireman, of the A. & B. railroad, met with a slight wreck here Friday evening. Coming from opposite directions around a curve, they met head on. Neither engineer saw the other train until too late to stop. Both engineers cut off the steam and turned on the brakes and both crews jumped to save their lives, all escaping uninjured.

GOAT HILL.

Goat Hill, Dec. 2.—William Kipph's shooting match was largely attended Thanksgiving day.

William Huston is on the sick list. Mr. and Mrs. J. D. Zupp, of East Greenville, visited the latter's parents last week.

Fred Kipph, of Canton, visited at home over Thanksgiving.

The mines here are running full time.

Nick Christmas has purchased from Canton a fine horse and buggy.

Fred Beck has been on the sick list the past few weeks.

Our sportsmen claim that game is very scarce.

A few from this vicinity attended the play in the Armory in Massillon Thursday evening.

EAST GREENVILLE.

East Greenville, Dec. 2.—The Rev. Rosslyn Davis, of Pittsburg, preached in the Welsh Baptist church, Sunday morning and evening. There was no service in the Congregational church Sunday evening so the church was well filled. A good sermon was preached on the topic, "Love of Christ." Mr. Davis arrived home four weeks ago from Roundvalley, South Wales, where he and his wife visited the home of his aged mother, who is now 78 years old. Mr. Davis came to this country in 1865 and since has made three trips to Wales. He has been married now about fourteen years and last spring he took his wife with him to see the land of his birth.

Mr. and Mrs. Davis visited some of the largest cities in Wales, through Merthyr, Dowlais, Rummy, Cardiff and Swansea, taking in the entire country North and South Wales. Mr. Davis was engaged for four months preaching at different places. At Rummy he visited the grave of the Rev. John Jones, better known as Maththias throughout Wales and the United States, especially among the Welsh people. The Rev. Mr. Jones had begun to write a book at the time of his death entitled "The Book of Explanation," in the Welsh language.

Thomas Thomas has been promoted from boss driver to mine boss at the Woodland mine. He is to fill the place of David Jones who has been promoted to the position of superintendent.

Reese Lewis moved Monday to Woodland. He has rented his place to Richard Aston, of Massillon.

NEWMAN.

Newman, Dec. 3.—William Rhodes, who is now working at Akron, spent Sunday with his family in this village.

Mrs. William Scoville and children, of Canal Fulton, visited her former neighbors here last Sunday.

The Deloff family had a large gathering for their Thanksgiving dinner. Mrs. John Linn, of Canal Fulton, was present and enjoyed the occasion.

December 1 was the seventy-sixth birthday anniversary of Mrs. Margaret Young, which was celebrated by the family and friends at the old home-stand, the occasion being a complete surprise to the old lady. After doing justice to an elegant dinner the day was spent in social conversation, recalling the pleasant memories of the past.

The Juniors will hold a dime social at the residence of Mrs. Barbara Dehoff on Saturday evening of this week. Mr. Leavenworth, the impersonator, of Canton, will be present. An interesting programme has been arranged to entertain all. Everybody is invited.

The Newman Sunday school, following the long established custom, will hold its usual Christmas eve exercises. A select committee has full charge and a rare literary treat will be in store for all who may attend.

Several of our people attended the Odd Fellows' banquet at Massillon, Monday evening, and report a very pleasant time.

RIVERDALE.

Riverdale, Dec. 3.—Ira Smith, Mr. Wagner and Ora Rhinehart, of Rockville, accompanied by James Grant, of Massillon, gave the cotton tails and quail a farewell serenade in this vicinity last Saturday.

Beck Brothers sold about forty tons of baled hay to Mr. Loutzenheiser, of Canton, this week.

Mr. Shetler, of Beach City, has leased the Lonas farm, better known as the Parks farm, in this vicinity, and will prospect in the near future for dusky diamonds.

Mr. and Mrs. Mase have gone to Geauga county to visit friends and relatives located there.

Farmers are enjoying a little recreation after a summer's toil, and are feasting on fresh sausage and fried rabbits when Game Warden Dangleleisen is not peeping around the corner.

People in this community in general observed the occasion of Thanksgiving by rejoicing that they enjoyed the privilege of living in this country of prosperity and success.

A number of fat cattle were driven north through this vicinity on last Thursday.

CRYSTAL SPRING.

Crystal Spring, Dec. 4.—Master Addy Rohr went to Cleveland last Sunday.

Born, to Mr. and Mrs. H. W. Ries, a daughter.

The Misses Pauline Klein and Hannah Scharr and Mr. and Mrs. August Ehret, of Massillon, spent Sunday at the Springs.

Mr. and Mrs. Philip Young pleasantly entertained a jolly crowd at their farm home, one-half mile west of town, on Saturday night. The guests were Massillon friends, who came to surprise Mrs. Young. They brought along well filled baskets and a fine supper was served.

Miss Flora White was agreeably surprised by twenty-five young friends Saturday night at her Sweet Brier cottage home. The time was devoted to games and other diversions.

The season for killing hogs is now at hand, but the "who can beat that" slogan has not yet been heard. General Lee Wilson, who usually raises the biggest hogs in this vicinity, thinks he can hold the championship another year when the total weight of his porkers is made known. It is said that he always is compelled to tear the pen down in order to get his hogs out for the scalding barrel.

About a dozen young ladies disguised themselves in comic costumes Monday night and tendered Miss Myrtle Smith, of East End hill, a great surprise. The hostess proved equal to the occasion and the guests report a fine time.

NORTH LAWRENCE.

North Lawrence, Dec. 4.—The children of the public schools enjoyed the Thanksgiving vacation.

Miss Ruth Nelson, of Massillon, was the guest of Miss Eva Ellis during the vacation.

The Rev. William Hyde, of Orrville, is ably assisting the Rev. J. Mottershead in the series of meetings being held at the M. E. church.

Frank Brown shipped two car loads of cattle east on Saturday. Lawrence is becoming a favorable shipping point. Cattle, swine, grain and baled hay are the exports.

Miss Grace Newstetter, Mrs. Ed Buttermore and daughter paid Canton friends a visit last Friday.

Jacob Lawrence left for Chicago Saturday evening.

Mr. and Mrs. Russell Campbell, of Canton, were guests at the home of Mrs. Campbell's parents, Mr. and Mrs. David Jones, on Sunday.

Mr. and Mrs. Fred Fisher, of Massillon, were Sunday visitors of Mr. and Mrs. Hugh McInnis, parents of Mrs. Fisher.

Miss Edith Harrold, of Massillon, was a guest at the residence of William Ketter this week.

Mrs. J. M. McDowell, of Orrville, accompanied by her mother, Mrs. D. Wampler, of Sixteen, visited Mrs. R. O. Ellis, Monday.

Matthew New, a fireman on the Ft. Wayne railroad, is spending a few days at home.

URBAN HILL.

Urban Hill, Dec. 4.—Mr. and Mrs. John Newstetter, of Canton, spent Thursday of last week with the former's parents.

Mr. and Mrs. Batton, of Rittman, are spending several days with their daughter, Mrs. W. S. White.

Buttermore & Newstetter finished threshing December 2.

Miss Mary Wilson, of Massillon, spent Thursday with her brother, Hugh Wilson.

Miss Grace Newstetter, Mrs. E. H. Buttermore and daughter, Grace, spent Friday of last week in Canton.

John Leisy moved his household goods to Clinton on Tuesday.

Mr. and Mrs. George Ackerman spent Thanksgiving in Akron.

Mrs. Lucetta Yookey, of Canal Fulton, is visiting Mrs. David Newstetter.

SONNENBERG.

Sonnenberg, Dec. 4.—Mr. and Mrs. Elias Augsberger, of Putnam county, are visiting relatives in this vicinity.

Born, to Mr. and Mrs. Jacob Nussbaum, a daughter.

David Hostetter on Tuesday went to

Holmes county on a business trip.

Miss Tillie Tachantz and Mr. William Hostetter were married last Thursday at the New Salem church.

Daniel Amstutz and Miss Fanny Zaugg were the guests of Mr. and Mrs. Daniel Welty on Sunday.

The infant son of Mr. and Mrs. Peter Amstutz is on the sick list.

Solomon Schwartz, who has been in the West for the past year, has returned home.

Daniel Bixler has rented the farm of David Moser and will move to it in the spring.

Mr. and Mrs. Benjamin Amstutz were the guests of Mr. and Mrs. David Hostetter on Sunday.

GENOA.

Genoa, Dec. 4.—Farmers are about through husking corn.

Lewis Boli and John Harmon have been doing some carpenter work for Fred Marchand the past week.

The Misses Anna and Metta Ricksecker, of Navarre, were the guests of Miss Elva and Hazel Marchand over Saturday and Sunday.

William Wilson took a trip to Beach City last Sunday and drove one of the Fick Brothers' best mules.

Born, to Mr. and Mrs. Frank Wade, a daughter.

John Wallace will move on the Rice property, in Richville, in the near future.

Church service will be held at Richville next Sunday evening, the Rev. Mr. Snyder, of Canton, will officiate.

Mr. and Mrs. Allen Houliet, of Massillon, visited the latter's sister, Mrs. Clara Shell, last Sunday.

SIXTEEN.

Sixteen, Dec. 4.—Mr. and Mrs. Herman Walters, of Massillon, spent Sunday at this place.

Warren Erb, of Mansfield, visited his parents here several days last week.

William Jones and family have moved to North Lawrence.

Mrs. Mary Rudy, who has been suffering from lung fever, is convalescent.

Mrs. Elizabeth Wampler is seriously ill at the home of her daughter, Mrs. Sabina McDowell, at Orrville.

STANWOOD.

Stanwood, Dec. 4.—Peter Rodocker is building an addition to his house.

Adam Weisgerber and Heister Oberlin, who have been dilling in Morgan county, have returned home.

Mr. and Mrs. W. D. Oberlin spent Thanksgiving with relatives in Cleveland.

Mrs. Jonathan Stoner and Miss Nellie Stoner are the guests of relatives in Wilmet.

Owing to the scarcity of help many of the farmers have much corn yet unhusked.

Ed Oberlin spent Monday hunting near Justus.

OBITUARY.

EDMUND B. JONES.

Edmund B. Jones, aged 58, died at the home of the Rev. M. Beck, in Sugar Creek township, Monday morning. The cause of death was Bright's disease. The funeral will be held at McFarren church at 10 o'clock Wednesday morning. The Rev. Mr. Warner, assisted by the Rev. Mr. Beck, will officiate. Interment will be made in the Massillon cemetery.

The deceased was the son of Dr. and Mrs. John Jones, of Doylestown. He was born in Burlington, N. J. Until obliged to stop work on account of poor health, he was employed by the Pennsylvania Railroad Company in its Pittsburgh offices, and had been in the company's service for twenty-eight years. At one time he made his home in Massillon. Mr. Jones served with distinction in the Fifteenth Pennsylvania cavalry during the war and was a member of the Union Veteran Legion, Post 72, of Rochester, Pa. Five weeks ago he arrived at the home of the Rev. Mr. Beck, where he died. He is survived by his wife, who was with him when he passed away and who is a cousin of Mrs. Beck.

MRS. AMBROSE EHRET.

Word was received at a late hour Wednesday afternoon of the death of Mrs. Ambrose Ehret, of this city, who is visiting at the home of her son, H. Wademan, in Michigan. The children who survive her are Frank and Gustave Ehret, of this city; Mrs. Alice Kelley, of Uhrichsville, and Mrs. Tillie Young, of Canton.

ANTI-SALOON LEAGUE.

Officers Elected at Tuesday Evening Session.

Columbus, Dec. 3.—The Anti-Saloon League re-elected the old officers Tuesday evening with the exception of President Whitlock, who was forced to retire because of continued ill health. A president will be elected at the session to be held Wednesday morning. The officers elected are: Vice president, the Rev. Dr. Emory W. Hunt, president of Denison university; state superintendent, the Rev. P. A. Baker, of Columbus; assistant, E. H. Charrington, Columbus; attorney, W. B. Wheeler, Toledo; treasurer, R. S. Brook, Columbus; secretary, Dr. F. A. Wilbur, Mt. Vernon.

YOUNG GIRL ELOPES.

Addie Barron, Aged 15, Arrested in Canton.

Canton, Dec. 3.—Addie Barron, aged fifteen years, the daughter of A. J. Barron, said to be a wealthy and influential business man of Dresden, is held by local authorities until an officer from Dresden can reach here and take her in charge. She is accused of eloping with Pete Moore, formerly of Dresden, but now employed in the tin mill here. They are said to have left Dresden together Sunday afternoon and were located in a boarding house here Tuesday evening. The arrest of Moore was also attempted, but he was given the tip when the marshal approached the boarding house and escaped the back way. Officers are still looking for him.

DOWN IN TEXAS.

County Officials Cannot Speak English.

Houston, Tex., Dec. 3.—The newly elected officials of Zapata county have just taken charge of their offices and it develops that only two of them, the judge and the county clerk, are able to conduct business in the English tongue. The sheriff, tax assessor, collector and four commissioners and a majority of the deputies appointed speak Spanish fluently, but they are unable to carry on even a short conversation in English. There is no provision of the state law compelling them to do so.

A Tissue Builder, Strength Producer, Flesh Creator, Life, Prolonger. Puts life and hope into the human heart. That's what Rocky Mountain Tea does. 35c. Z. T. Baltzly.

AGAINST DEAD BEATS.

Action Taken by the Retail Grocers' Association.

Columbus, Dec. 3.—The State Retail Grocers' Association yesterday voted to adopt what is known as the Toledo plan to protect dealers against dishonest debtors. The grocers of the state will adopt a universal credit system, under which reports upon reliability of grocery purchasers in all cities, villages and hamlets will be published at regular intervals and placed in the hands of all grocers.

WORK IS RESUMED.

Arbitration Commission is in Session at Scranton.

Scranton, Pa., Dec. 3.—The entire membership of the anthracite coal strike commission is now here and resumed the hearings at 10 o'clock this morning. Commissioners Watkins, Clark, and Parker, who constitute the sub-committee appointed to carry on the work of the commission during the Thanksgiving adjournment, have been in the city ever since the commission adjourned ten days ago.

NEW TRIAL FOR POWERS.

Now Serving a Life Sentence in Penitentiary.

Frankfort, Ky., Dec. 3.—The appellate court today granted a new trial to Caleb Powers, convicted in the Goebel murder conspiracy and sentenced to life imprisonment.

When in doubt as to which is the best way to get new business, use the advertising columns of THE EVENING INDEPENDENT.

Life

Renewed. Left Side Badly Affected.

Liabie to Paralytic Stroke.

Dr. Miles' Nervine Gave Me New Life.

"This is to certify that I have used Dr. Miles' Remedies quite extensively, especially the Restorative Nervine, which has done wonders for me. Six years ago I had nervous prostration and again three years ago, at which time I began taking Dr. Miles' Restorative Nervine. I kept taking it for six months and have taken an occasional dose during the last two years. I am practically a new man and feel that I have been given a new lease of life. I used to have very bad attacks of stomach trouble but since using the Nervine I can eat most anything I want with impunity. I was examined in Omaha by a noted German doctor three years ago. He told me I was liable to a paralytic stroke any moment, that my whole left side was badly affected. That was just before I began taking Dr. Miles' Restorative Nervine. My work for two years and a half has been very trying on my nerves. I am a presiding elder, traveling my districts at the rate of ten thousand miles a year, preaching on an average of five times a week, besides many business meetings, and the multitudinous cares of my work in general. Thanks to Dr. Miles' Restorative Nervine I have been gaining in flesh despite this hard work until now I weigh a hundred and ninety-six pounds, nearly twenty pounds more than in all my life. I preach Nervine wherever I go to those afflicted with nerve, heart or stomach trouble."—Rev. M. D. Myers, Presiding Elder, Free Methodist Church, Correctionville, Ia.

STAMPING OUT DISEASE.

Scores of Veterinary Surgeons Now at Work.

Washington, Dec. 3.—Official notice of the action of the British government prohibiting the landing of live stock from the New England states was received at the department of agriculture today. Acting Secretary of Agriculture Willis L. Moore today ordered about twenty veterinary surgeons in the bureau of animal industry in various sections of western cities to proceed to New England to augment the force of experts already at work there fighting the epidemic. This force will also be added to by the inspectors relieved from duty owing to the cessation of exportations to Great Britain. It is not yet known where the epidemic originated.

Cures croup, sore throat, pulmonary troubles—Monarch over pain of every sort. Dr. Thomas' Electric Oil.

Artificial Eyes kept in stock. Catarrh of Ears, Nose, Throat and Lungs cured by our new HOME TREATMENT.

TESTIMONIALS:

Having been blind in my right eye for a long time, I then had it fully restored by an operation done by Dr. Clouse.

Thanks to Dr. Clouse, He restored my sight. "I was blind but now I see." Dr. Clouse, specialist of Canton, Ohio, who is at the Conrad hotel each Tuesday, restored the sight of my left eye which had been blind for several years. I am 72 years old and can see again as when young.

MRS. JOHN OSTHEIMER, 84 W. Main st., Massillon, Ohio.

Dr. Clouse, Specialist, restored the sight of my right eye by an operation after other doctors had given it up.

ALBERT CLOUSER, New Berlin, O.

Dr. Clouse, Specialist, saved an eye for me three years ago, after a number of doctors including a specialist of Cleveland, wanted to remove it, and it has given me no trouble since.

AUSTIN KOHN, Canton, Ohio, PROMINENT WOOLFEY INSTRUCTOR.

Wooster, O., June 2, 1902.

Dear Sir: A few years ago my eyes needed attention. Through the influence of friends whose eyes you had treated successfully, I was led to consult you. You fitted my eyes with glasses that have helped me very much ever since. I gladly testify to your success.

Respectfully yours, NELSON SATTVAIN.
